Objection to Proposed Solar Panel Development Near Field House Farm Caravan Site and
Storage Area. RR-0666

You don't often get email from [REDACTED]

Dear Sir/Madam,

I am writing to formally object to the proposed solar panel development near Field House Farm Caravan Site and Storage Area.

As the owner of a motorhome, I visit Field House Farm regularly. One of the main reasons I choose this site is because it offers a peaceful, rural environment where visitors can enjoy the tranquillity of the countryside. It is a little haven away from the pressures of everyday life, and I believe this development would have a significant negative impact on both the site and the surrounding area.

I am also concerned about the effect the proposed development would have on the local environment. The surrounding fields provide valuable habitat for wildlife, and I worry that the construction and long-term presence of a large solar installation could disturb local wildlife, birds, and other animals. I am equally concerned about the potential impact on livestock and the character of the working farm.

The rural landscape is an important part of what makes Field House Farm so special. Introducing a large-scale industrial-style development into this setting would fundamentally change the appearance and atmosphere of the area, reducing its appeal for visitors and affecting the enjoyment of those who come to the site for peace and relaxation.

For these reasons, I strongly object to this planning application and respectfully ask that my concerns are taken into account when the proposal is considered.

Thank you for considering my objection.

Yours faithfully,

Joanne Evans
