Light Valley Solar

Applicant Submission – Change Application (13 October 2026)

Dear Examining Authority,

Further to the Change Notification [CR1-001], this letter sets out the documents which are submitted by Light Valley Solar Limited (the Applicant) for a Change Application of the Examination of Light Valley Solar.

These documents are provided following a detailed review of the existing design and optionality on cable route access.

As requested in the Rule 17 Letter, a Supplementary Environmental Information Report [EN0110012/APP/LVS/08.43] has been prepared to set out the environmental considerations relating to the changes.

Whilst the Outline Landscape and Ecological Management Plan [EN0110012/APP/LVS/07.05] was identified in the notification to be updated, from a detailed review of the document and reading across with the changes to the Outline Environmental Masterplan, this is considered to no longer be required. Change 7 involves the removal of panels and area covered as meadow as already covered by the existing management measures within the OLEMP and as such no further amendments are required.

To demonstrate the landscape and visual effects of Change 7 the photomontage for Viewpoint 46 has also been reproduced and is included within Annex B of the Supplementary Environmental Information Report [EN0110012/APP/LVS/08.43].

The Applicant also notes that the Land Rights Negotiation Tracker [EN0110012/APP/LVS/04.04] (Change Application) includes updates shown in **red** to identify plot and land interest changes arising from the Proposed Changes and reflected within this Change Application, the Tracker

also includes updates shown in **green**. The green-marked updates relate to changes that occurred during the Examination and ought to have been incorporated within the version of the Tracker submitted at Deadline 2 but were omitted in error. These amendments have now been included for completeness and to ensure that the Land Rights Negotiation Tracker [EN0110012/APP/LVS/04.04] (Change Application) is fully aligned with the Book of Reference [EN0110012/APP/LVS/04.03] (Change Application) and Land Plans [EN0110012/APP/LVS/02.02] (Change Application). Accordingly, the Tracker incorporates both the Proposed Change-related updates, and the Examination-stage updates necessary to provide a complete and accurate record of land interests and negotiations. The Applicant will ensure that the Deadline 2 omissions are consolidated into the Land Rights Negotiation Tracker when it is next updated.

Submitted Documents

Note for revised documents, clean and tracked versions of each are submitted when appropriate.
