Subject: Fw: RE: Urgent - Environment Agency's Availability for Virtual Meeting w/c 19 October - Light Valley Solar

Hi Ryan,

We have undertaken an initial, high-level overview of the proposed changes and do not believe that they are likely to result in any major concerns for us which could not be resolved throughout the remaining Examination period. Given the likely minor nature of the proposed changes for us, we also don't have any concerns to raise regarding the amended Examination timetable.

Based on this, we don't believe it is necessary for the Environment Agency to attend the meeting on Wednesday. However, if you would still like us to attend to confirm this position, we would be happy to do so.

Kind Regards,

[REDACTED]

Good afternoon [REDACTED]

Thank you for confirming the Environment Agency's attendance at the virtual meeting.

You may have already seen it, but the Examining Authority issued a letter on 14th October that provides details of the meeting and also confirms the date (Wednesday 21st October) and time (9:30am registration, 10:00am start).

The letter also includes an agenda.

You can view the letter at this link: [https://nsip-documents.planninginspectorate.gov.uk/published-documents/EN0110012-000943-Light%20Valley%20Solar%20-%20Rule%206\(3\)%20letter%20-%20October%202026.pdf](https://nsip-documents.planninginspectorate.gov.uk/published-documents/EN0110012-000943-Light%20Valley%20Solar%20-%20Rule%206(3)%20letter%20-%20October%202026.pdf)

Within the letter is also a link to a Microsoft Form, where attendance can be registered. Once the planner attending is known, could the Environment Agency please ensure they fill out the form, or email us to confirm who will be attending and their contact details so we can send the joining instructions the day before the meeting.

Kind regards,

Ryan

Hi Ryan

I can confirm that the Environment Agency is free to attend a meeting anytime on Wes/Thur next week. I understand this is just to discuss timetabling, as such it will just be one of us (planners) needed to attend, and technical advisors will not be necessary at this point.

If you can provide an agenda beforehand that would be useful to help us prepare any info we may need to bring along.
