No dimensions are to be scaled from this drawing. All dimensions are to be checked on site. Area measurements for indicative purposes only. The extents of cumulative schemes on the short list are an approximate and do not represent the full or true extent of a scheme, as such all contents of this plan are strictly indicative and should not be taken as final development extents. 'NSIP 3' extents are based on scenario 2 as shown on the submitted land plans. 'NSIP 2' and 'NSIP3' in areas share routes, difference between the two NSIPS is not made. 'NSIP 7' is not shown as it exceeds 25km from The Droves Solar Farm order limits. 'LPA 9' and and 'LPA 10' show the approximate and assumed route of the main pipeline route only.
The area of order limit overlap between High Grove Solar Farm and The Droves Solar Farm order limits is approximately. 10ha (hectares). NSIP 1A is approximate location of application. NSIP 3A and 4A extents show approximate onshore connection works.
