[You don't often get email from [REDACTED]. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

Following the public consultation for proposed EPS industrial development, I would like to request a visit to my property by the planning inspectorate. A site visit is the only way to truly demonstrate the horrendous impacts that this project would have on my property and on the footpath, part of which we own & which is regularly used and enjoyed by community members. As we have a three story property overlooking the proposed industrial development there is no possible mitigation which could make this in any way acceptable. My family and I have already been emotionally impacted by these proposals I suggest we meet at our property with our legal team to show you first hand, the negative impact that this is having on our lives, futures and the rural environment in which we chose to make our home.

Please let me know as soon as possible , when we can arrange this meeting as the stress and upset of all this is , quite frankly, tortuous.

Sincerely

Mr & Mrs Price
