Subject: Objection to proposed development – Site 8, Shotesham
Date: 29 September 2026 07:50:42

You don't often get email from [REDACTED]

Dear Planning Inspectorate,

I am writing as a resident of Hawes Green to register my strong objection to the proposed development at Site 8 in Shotesham and to ask that Site 8 be removed in its entirety from the overall plan.

I understand that there are errors in the mapping undertaken for this part of the proposal. I am also concerned that the physical screening proposed for Site 8 would be ineffective and would not adequately mitigate the development's impact on Hawes Green and its surroundings. I would ask that these matters are carefully examined as part of the Inspectorate's consideration of the proposal.

Hawes Green is a historically important and irreplaceable part of Shotesham and forms a key element of this wonderful conservation area. Its character derives not simply from individual features, but from the landscape, setting and relationship between the historic environment and the surrounding countryside. Once that character is materially altered, it cannot simply be recreated through screening or other mitigation measures.

The proposals for Site 8 would have a significant impact on the character and setting of Hawes Green and on the way of life of those who live here. The value of this area deserves to be given substantial weight, rather than relying on mitigation that, in my view, would not address the fundamental harm caused by the development.

For these reasons, I respectfully request the complete removal of Site 8 from the overall plan. I would be grateful if this objection could be formally recorded and taken into account during the examination of the proposals.

Kind regards

Mark Hall
