Supplementary AI declaration – CAH request S [REDACTED]

This submission relates solely to my earlier Compulsory Acquisition Hearing participation request, submission reference [REDACTED]. It does not replace or alter that request.

AI declaration: OpenAI ChatGPT was used to help draft and edit the wording of my CAH participation request. The source material comprised the Planning Inspectorate's Rule 6 and Rule 8 letters, the Book of Reference [APP-022], my Relevant Representation [RR-1611], correspondence concerning my Category 3 request, and other East Pye examination documents.

I reviewed the final CAH request before submission and take responsibility for its accuracy, completeness and content.
