

Transport.

At the meeting held at Dunston hall a comment was made that a small road in Hempnall was to used for heavy lorries and large movements.

This road is called The Krons. It's a historic lane once connecting Fritton to Saxlingham Nethergate. The Krons is heavily used by older people in Hempnall as a daily circular walk and used by children playing in the river below the narrow bridge.

It is unsuitable for heavy transport movements.

I attach a photograph showing the lane.
