Submission ID: SEF79B8CD

With regard to the Statement of Common Ground between the applicant and National Highways, Document ref REP1-093, Saxlingham Nethergate Parish Council is deeply concerned that the AIL route from Framingham Earl via Poringland, Stoke Holy Cross and Shotesham to Saxlingham Nethergate is to remain as part of the application. The route runs from the Railway Public House at Framingham Earl on the B1332 and passes close to some 338 houses, two primary schools, two grade 11* listed churches and follows narrow roads that are in places not wide enough for a car and a commercial vehicle to pass. The route ends on Saxlingham Green a single track road.
The Parish Council urges the Examining Authority:

- to reject this AIL route and invite the applicant to find a more acceptable alternative.
- to determine who decides whether an AIL route is safe/acceptable, National Highways, NCC or the Applicant?
- to determine what happens if AIL routes are left until after consent and the applicant then finds that there is no safe/acceptable route?
