Planning Inspectorate  
By email

For the attention of [REDACTED]

Dear [REDACTED]

## Clean Air Solar Farm (formerly Kingfisher) – Change of project details

- 1.1 Clean Air Solar Farm is the new name for the Kingfisher Solar Farm, which is currently part way through the pre-application process with the Planning Inspectorate ('PINS'), having held a Project Inception meeting with PINS on 15 January 2025 and a Project Update Meeting on 6 March 2026.
- 1.2 Kingfisher Solar Farm was paused by Ørsted Onshore UK Limited (the 'Original Applicant') in summer 2025 while the Government's grid connection reform process was being considered.
- 1.3 Several matters have changed since Kingfisher Solar Farm was paused last year, notably:
  - Ørsted Onshore UK Limited has entered into a joint venture (JV) with PS Renewables and the Applicant is now **Clean Air Renewables Limited**;
  - Additional land to the south west of Beverley in the East Riding of Yorkshire local planning authority area has been brought into the project; and
  - The project has been renamed **Clean Air Solar Farm**.
- 1.4 As discussed at the Project Update Meeting, this letter sets out the Applicant's request for the existing PINS project page and reference number for Kingfisher Solar Farm to be retained, with an updated project name, Applicant details and contact information provided to reflect Clean Air Solar Farm.

Yours sincerely,

[REDACTED]
