FAO: EN0110019
DIO Ref: 10070280
Planning Ref: Joseph Jones

Dear Joseph,

Thank you for consulting the MOD on application reference EN0110019. Unfortunately, due to an unprecedented volume of consultation enquires, DIO Safeguarding is experiencing delays in our responses. We kindly request that our response be taken into consideration and that we are consulted at future stage of the project with any revised plans as per our last paragraph.

The Defence Infrastructure Organisation (DIO) Safeguarding Team represents the Ministry of Defence (MOD) as a consultee in UK planning and energy consenting systems to ensure that development does not compromise or degrade the operation of defence sites such as aerodromes, explosives storage sites, air weapon ranges, and technical sites or training resources such as the Military Low Flying System.

I can confirm that, following review of the application documents, the proposed development would be considered to have no detrimental impact on the operation or capability of a defence site or asset. The MOD has no objection to the development proposed.

The MOD must emphasise that this email is provided specifically in response to the application documents and supporting information provided on the Planning Inspectorate website as of the date of this email.

Amendments to any element of the proposed development (including the location, dimensions, form, and/or finishing materials of any structure) may significantly alter how the development relates to MOD safeguarding requirements and may result in detrimental impact(s) on the operation or capability of defence sites or assets.

In the event that any revised plans, amended plans, additional information or further application(s) are submitted for approval, the MOD, as a statutory consultee, should be consulted and provided with adequate time to carry out assessments and provide

a formal response whether the proposed amendments are considered material or not by the determining authority.

Kind Regards,
