Submission ID: SF4C3D2DF

I request a visit to my family property on [redacted] as we have not been consulted on significant changes affecting our land as a result of this proposal. These changes are documented in doc CC05, Appendix 3, sheet 48, concerning visibility splay. I neglected to include this in. My previous representations and living withing an area of order limit which also covers access to my property and land I would appreciate a visit.
