Submission ID: S87E1B8C0

I would like to suggest the following sites for inspection.
1. My Home at [redacted]. To view how I will be affected on three sides of my property.
2. To view the effect on our land that has the [redacted] scattered on it. On the map of Whitestone 1 it is shown as the Disused Railway. My wife rides her horse on this land virtually every day
And as well as losing the long distance views due to the closeness of the panels there are also plans for service roads to run along the boundary. Sudden noises and machines can be very dangerous to horses who are animals of flight. The grid reference for the [redacted] is [redacted]. Access is over private land.
3. To view from the top of Conisbrough Castle which has signage pointing out the views over its ancient deer park, which is the site of Whitestone 1.
4. The view from inside Conisbrough cemetery located close by Whitestone 1 accessed from the A630.
