Date Wed 11/02/2026 15:45
To A Eastwood <[redacted]>

Hi Angela,

Thank you for your email.

Apologies that you weren't able to make the date we offered and we unfortunately were only able to do site visits at that time.

In terms of next steps, we have a community newsletter coming out soon, which will show the changes made to the masterplans based on the second consultation. We received all your feedback from the consultation and have taken this into account whilst drawing up the updated masterplans.

This update will be coming shortly.

Thanks,
[redacted]

Subject: Site Visit to Firsby

Good Morning [redacted],

Thank you for your email dated Friday, 23rd January.

I am seeking clarification on the current process, as the correspondence to date appears inconsistent.

Feedback had already been submitted prior to your email of 29th October 2025, in which you proposed a site visit by [redacted] specifically to our property due to its unique aspect.

Given that our feedback was already on record, we understood the purpose of that visit was to discuss specific concerns in situ—notably the provision for safe horse riding/exercise and the impact on viewpoints potentially overlooked by the proposed solar arrays. This is why we made several attempts to arrange mutually convenient dates well in advance of the statutory consultation.

To help us understand the change in direction, could you please clarify:

- **The Original Intent:** What was the specific purpose of the proposed site visit if not to discuss the feedback already provided?
- **The Change in Plans:** What is the reason for postponing this meeting, and who made the decision to alter the engagement strategy at this stage?
- **Future Engagement:** Will a site-specific discussion now form part of the next stage when updated plans are shared in the spring?

We have been keen to engage constructively throughout this process and would welcome the opportunity to better understand how our specific concerns are being considered.

Kind regards,
Angela

Hello,

Sorry for the delay. We aren't planning to do any site visits at this time, which is why I haven't been in touch with you. We have your feedback from both consultations and are currently updating the masterplan in response. We will be back in touch this spring with the updated plans and to explain next steps.

Kind regards
[redacted]

Importance: High

Good Morning,

Following my emails, the most recent being on 12th January 2026, where I provided a broad timeframe for contact, I have not received a response. I will assume from this lack of communication that you are no longer interested in meeting with us.

Best regards,
Angela and [redacted]

Good Morning,

We are available from the 15th to the 23rd January 2026 with the exception of the 19th.

Many thanks
Angela and [redacted]

Hi Angela,

Thank you for getting back so quickly.

I will look to get back to you with alternative dates when [redacted] is back up. Conscious that you work shifts, do you have dates or times that work best for you at all?

Thanks,
[redacted]

Good Afternoon [redacted],
Unfortunately, I am working on this date, do you want to send a couple of alternate dates so I can check my shift pattern.

Many thanks

Angela

Dear Angela,

Thank you for your feedback that you have sent in.

I know previously you have emailed about a site visit specifically to your property, due to the aspect being different. Would you be available on Friday for [redacted] to make a visit to your property? If this is the case, would there be a time that would work for you?

Thanks,
[redacted]
