Submission ID: S677BA5EF

I would like to discuss the greater impact Whitestone Solar Farm Development will have cumulatively to the strategic development of the area under City of Doncaster Council. How past work delivered by Doncaster Strategic Partnership may well be compromised by this development. I wish to outline the long term effects on Health and Wellbeing and question if the overall impact benefits the area at what costs to our communities. My reasonings are based on my previous position as Chairman of Doncaster Primary Health Care Board [redacted].
