Submission ID: S6440263E

1. I have lived in Conisbrough for most of my life. My husband has lived and worked around Conisbrough Parks all his life, and we are both deeply distressed by the prospect of Whitestone 1 changing this beautiful countryside.
2. Conisbrough Parks are part of our family history.
3. During the summer, my husband and I took part in a community walk from Park Lane, down through Conisbrough Parks into Firsby, before returning up Firsby Lane. This walk demonstrated the importance of the connected paths, the changing views and the open countryside. I would particularly like the Examining Authority to experience this route for itself.
4.I am also concerned about the historic character of Conisbrough Parks, the loss of agricultural land, drainage and fire safety. These matters deserve careful examination before such a large development is permitted.
5. I respectfully request that the Examining Authority undertakes an accompanied site inspection following, where practicable, the community walk route from Park Lane through Firsby and up Firsby Lane. This would allow the Inspectors to appreciate the topography, public rights of way, countryside views and the relationship with the historic landscape.
6. Conisbrough Parks have given our family a lifetime of memories and have been an important part of our wellbeing. I ask the Examining Authority to consider the lasting effects on families like ours and whether Whitestone 1 should be removed from the proposed development.
