1 INTRODUCTION

1.1 Purpose of this Document

1.1.1 This document provides a guide to Whitestone Net Zero One Limited's (the 'Applicant') application for a Development Consent Order (DCO) for Whitestone Solar Farm made to the Secretary of State for Energy Security and Net Zero (the 'Secretary of State') pursuant to the Planning Act 2008 (PA 2008).

1.1.2 The Application is for a DCO for the construction, operation and maintenance, and decommissioning of a solar photovoltaic (PV) array electricity generating facility. The Proposed Development includes infrastructure capable of generating more than 100 megawatts (MW) of renewable energy connecting to the National Electricity Transmission System (NETS) at the proposed National Grid Long Lane 400kV Substation.

1.1.3 The Proposed Development meets the criteria to be considered as a Nationally Significant Infrastructure Project ("NSIP") under section 15(2) of the PA 2008 as it is a proposed generating station which would be within England, does not generate electricity from wind, would not be offshore and would have a total generating capacity of more than 100 MW.

1.1.4 A full description of the Proposed Development is provided in **Environmental Statement (ES) Volume 1, Chapter 5: The Proposed Development [EN0110020/APP/6.5]**.

1.1.5 This Guide aims to help the Examining Authority and Interested Parties understand the DCO Application through signposting to the documents that make up the Application. This Guide provides an overview of the documents that have been submitted in order to satisfy the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009) (as amended) (APFP Regulations), the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (EIA Regulations) and section 37 of the PA 2008.

1.1.6 Regulation 5 of the APFP Regulations sets out the documents that all DCO applications must include. The APFP Regulations also provide at Regulation 5(2)(q) for the submission of "*any other documents considered necessary to support the application*" as well as at Regulation 5(2)(o) for "*any other plans, drawings and sections necessary to describe the proposals*".

1.1.7 Regulation 6 of the APFP Regulations sets out the specific documentation required in support of draft DCO applications for particular types of development, including generating stations and grid connections.

1.1.8 The Proposed Development constitutes an Environmental Impact Assessment (EIA) development, and therefore the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (EIA Regulations) contained therein apply.

1.1.9 A full list of submitted documents can be found in Appendix A of this document. Appendix A is a live document that will be updated throughout examination should additional documents be required, or updates be made to documents.

1.2 The Applicant

1.2.1 The Proposed Development is being promoted by Whitestone Net Zero Ltd which is a wholly-owned subsidiary of 'Net Zero One Ltd'. Net Zero One Ltd is a specialist renewable energy development business founded in 2021 to establish a funding pipeline to build, operate and decommission the Proposed Development and other similar projects.

1.2.2 The Applicant is part of the Green Nation family of companies established in 2011, Green Nation is a UK-based solar developer and manager of operational sites with extensive experience in both rooftop and ground-mounted solar projects. Green Nation currently manages 75 solar farms and more than 700 rooftop installations across the country. Its solar farm portfolio totals over 200 MW of electricity producing capacity for the UK.

1.3 Structure of this Document

1.3.1 The structure of this Guide to the Application is as follows:

- Section Two provides an overview of the Proposed Development;
- Section Three issues an overview of the documents that form part of the Application for Development Consent. It specifically discusses the numbering conventions used and the control documents;
- Section Four sets out the requirements of volume one for a DCO application, including the application form, etc.;
- Section Five discusses the key plans, drawings and sections provided in the DCO Application;
- Section Six explains the draft DCO, and the proposed articles associated with this;
- Section Seven summarises the compulsory acquisition information submitted alongside the DCO Application;
- Section Eight briefly explains the key reports and statements for the Application;
- Section Nine sets out the approach taken for the Environmental Statement and references the relevant appendices and figures submitted alongside the main statement;
- Section Ten sets out the other documents that have been submitted alongside the Application; and
- Appendix 1 includes a document schedule of all documents submitted with the Application.

1.3.2 This document has been updated at Procedural Deadline A in response to document updates by the Applicant. The document references have not been updated from the original submission throughout this document other than Appendix A. Please refer to Appendix A for the list of current versions of documents.

2 THE PROPOSED DEVELOPMENT

2.1 Proposed Development Description

2.1.1 The Proposed Development involves the construction, operation and maintenance, and decommissioning of more than 100 MW of solar photovoltaic (PV) arrays, Battery Energy Storage System (BESS), onsite substations and supporting infrastructure, and grid connection infrastructure. The grid connection infrastructure would connect the Proposed Development to the National Grid at the new National Grid substation Brinsworth (Long Lane 400kV Substation), located east of Long Lane, Rotherham. National Grid has applied to Rotherham Metropolitan Borough Council for the development of this new substation which is intended by National Grid to be operational in time for the Proposed Development to connect in 2029. The Long Lane 400kV substation is therefore not included in the Proposed Development and is subject to a separate planning application taken forward by National Grid.

2.1.2 As the Proposed Development would have a generating capacity in excess of 100MW, it is considered to be a Nationally Significant Infrastructure Project (NSIP) under the Planning Act 2008.

2.1.3 The Proposed Development would be located within the Order Limits. The Order Limits encompass the total area of the Proposed Development comprising the Site and Cable Corridors. The Site is specifically the land that is planned to be used for solar PV array and associated infrastructure, BESS, substation, landscaping and habitat enhancement. The Site is split into Whitestone 1 (W1), Whitestone 2 (W2), and Whitestone 3 (W3) as described in **ES Chapter 3: The Site and Surrounding Area [EN0110020/APP/6.3].**

2.1.4 The main objective of the Proposed Development is to generate low-carbon renewable energy that contributes to addressing the urgent need to decarbonise the UK's energy supply. The **Statement of Need [EN0110020/APP/5.8]** provides further details.

2.1.5 The design life of the Proposed Development is 60 years with decommissioning to commence 60 years after final commissioning (currently anticipated to be 2029 – 2089).

2.1.6 The key Proposed Development components comprise:

- Solar PV Infrastructure
- Interconnection Cables
- BESS
- Substations
- Highway Works
- Landscaping and biodiversity mitigation / enhancement
- Drainage Works
- Temporary Construction Compounds; and
- Other Works (access tracks, security, lighting, and Glint and Glare fencing).

2.2 The Order limits

2.2.1 The extent of the Order Limits are shown in **ES Figure 3.1: Order Limits [EN0110020/APP/6.19]** and the Proposed Development is shown spatially on the **Works Plans [EN0110020/APP/2.3.1].**

3 OVERVIEW OF APPLICATION DOCUMENTS

3.1.1 The documents submitted as part of the Application have been grouped into the below document volumes noted within **Table 3.1** to accord with the Planning Inspectorate's Nationally Significant Infrastructure projects: Advice on the Preparation and Submission of Application Documents published in August 2024 (updated November 2025).

Table 3.1: Guide to the Parts of the Application

Document Volume	Context
Volume 1 – Application Forms	Contains the completed application form, the Application cover letter, this Guide, Pre-Application Programme Document and the section 55 checklist completed by the Applicant demonstrating the Application can be accepted pursuant to section 55 of the PA 2008.
Volume 2 – Plans, Drawings and Sections	Contains relevant plans for the Proposed Development, as required by the APFP Regulations and other plans provided to support the Application.
Volume 3 – Draft Development Consent Order	Contains the draft Statutory Instrument containing the legal powers the Applicant is seeking, together with the Explanatory Memorandum document explaining the provisions of the DCO.
Volume 4 – Compulsory Acquisition Information	Provides evidence for why legal powers of compulsory acquisition are sought, as well as information on how the Proposed Development is to be funded and details of the land interests that are required for the Proposed Development. This Volume also includes the preapplication Land and Rights Negotiations Tracker.
Volume 5 – Reports and Statements	Contains the consultation report and its supporting appendices relating to the pre-application consultation undertaken on the Proposed Development and how consultation feedback has been taken into account. In addition, the Habitat Regulations Assessment Screening Report, Planning Statement, Policy Compliance Document, Design Approach Document, Statutory Nuisance Statement, Schedule of Consents and Licences Required Under Other Legislation, and Potential Main Issues for the Examination (PMIE) are also included in Volume 5.
Volume 6 – Environmental Statement	Provides environmental information and an assessment of the likely significant effects of the Proposed Development, as well as a description of proposed mitigation measures.

Document Volume	Context
Volume 7 – Additional prescribed information for specific types of projects and Other Documents	As the Proposed Development is a non-offshore generating station, Volume 7 contains a statement of responsibility for designing and building the connection (the Grid Connection Statement). This Volume also contains additional documents pertaining to the Proposed Development, required by Regulation 6 of the APFP Regulations and considered by the Applicant to be required to support the application in accordance with Regulation 5(2)(q) of the APFP Regulations.

3.1.2 The remainder of this Guide (section 4 to 10) provides a summary of the purpose of the documents and plans included within each volume described in Table 3.1 above.

3.1.3 A copy of all of the application submission documents will be available on the Planning Inspectorate project website following acceptance for Examination by Planning Inspectorate.

3.2 Document Numbering

3.2.1 Documents are numbered in sequence within the respective volumes (as outlined in Appendix A of this Guide), with the volume number being the first digit of a document number, the chapter and/or Appendix number.

3.3 Control Documents

3.3.1 The DCO Application contains a number of control and compliance documents which establish the parameters, consenting envelope and secure the mitigation for the Proposed Development. These are proposed to be secured by the Development Consent Order and are as follows:

- Location Plans [EN0110020/APP/2.1.1]
- Land Plans [EN0110020/APP/2.2]
- Works Plans [EN0110020/APP/2.3.1]
- Streets, Rights of Way and Access Plan [EN0110020/APP/2.4]
- Traffic Regulations Plan [EN0110020/APP/2.5]
- Crown Land Plan [EN0110020/APP/2.8]
- Vegetation Removal Plan [EN0110020/APP/2.9.1]
- Book of Reference [EN0110020/APP/4.3]
- Environmental Statement [EN0110020/APP/6.1 – 6.21]
- Design Approach Document [EN0110020/APP/5.7]
- Outline Construction Environmental Management Plan[EN0110020/APP/5.9]
- Outline Operational Environmental Management Plan [EN0110020/APP/5.10]
- Outline Decommissioning Environmental Management Plan [EN0110020/APP/5.11]
- Outline Construction Traffic Management Plan [EN0110020/APP/5.12.1]

- Outline Landscape and Ecology Management Plan [EN0110020/APP/5.13]
- Outline Public Rights of Way Management Plan [EN0110020/APP/5.14.1]
- Outline Battery Safety Management Plan [EN0110020/APP/5.15]
- Outline Written Scheme of Investigation [EN0110020/APP/5.16]
- Outline Surface Water Drainage Strategy [EN0110020/APP/5.17]

3.3.2 The list above forms part of the list of Certified Documents set out at Schedule 14 of the **Draft DCO [EN0110020/APP/3.1.1]**, which includes other documents such as the **Land Plans [EN0110020/APP/2.2]** that form the overarching legal controls for the Proposed Development.

3.4 Management Plans

3.4.1 The outline management plans included within Volume 5, and referenced as control documents above, provide the framework and overarching principles for mitigation during both the construction, operation and maintenance, and decommissioning phases of the Proposed Development.

3.4.2 The **Draft DCO [EN0110020/APP/3.1.1]** includes requirements that secure further detailed management plans where necessary. These detailed management plans are required to be submitted to and approved by the relevant planning authority as identified in the **Draft DCO [EN0110020/APP/3.1.1]**. **Table 3.2** below sets out to which phases of the Proposed Development each outline management plan applies.

Table 3.2: Outline Management Plans and Applicable Project Phases

Document	Construction	Operation	Decommissioning
Outline Construction Environmental Management Plan (oCEMP) [EN0110020/APP/5.9]	X		
Outline Operational Environmental Management Plan (oOEMP) [EN0110020/APP/5.10]		X	
Outline Decommissioning Environmental Management Plan (oDEMP) [EN0110020/APP/5.11]			X
Outline Construction Traffic Management Plan (oCTMP) [EN0110020/APP/5.12.1]	X		

Document	Construction	Operation	Decommissioning
Outline Landscape and Ecology Management Plan (oLEMP) [EN0110020/APP/5.13]	X	X	X
Outline Public Rights of Way Management Plan [EN0110020/APP/5.14.1]	X	X	X
Outline Battery Safety Management Plan (oBSMP) [EN0110020/APP/5.15]	X	X	X
Outline Written Scheme of Investigation (oWSI) [EN0110020/APP/5.16]	X		
Outline Surface Water Drainage Strategy [EN0110020/APP/5.17]	X	X	
Outline Skills and Supply Chain Management Plan [EN0110020/APP/5.18]	X	X	X
Outline Cable Construction Method Statement [EN0110020/APP/5.19]	X		

4 VOLUME 1 – APPLICATION FORMS

4.1.1 The **Application Form [EN0110020/APP/1.1]** is the standard application form required by Section 37(3)(b) of the PA 2008 to be submitted with the application. It provides a high-level summary of the Proposed Development and the documents that have been submitted for the Applicant's DCO Application.

4.1.2 The **Application Cover Letter [EN0110020/APP/1.2]** provides a brief description of the Proposed Development, its location, and a general introduction to the Application.

4.1.3 The purpose of this **Guide to the Application [EN0110020/APP/1.3.1]** is referred to above in section 1.1.

4.1.4 **Copies of Newspaper Notices [EN0110020/APP/1.4]** are included to show the notices that have been published in the appropriate outlets as part of the preapplication process.

4.1.5 The **Pre-application Programme Document [EN0110020/APP/1.5]** is a document that outlines the main steps the applicant has taken to prepare the application including consultation etc. and includes the Adequacy of Consultation Milestone.

4.1.6 The Applicant's **section 55 checklist [EN0110020/APP/1.6]** is included to demonstrate how the Application fulfils the conditions for acceptance by the Inspectorate under Section 55 of the PA 2008.

4.1.7 The **Electronic Application Index [EN0110020/APP/1.7]** is the ordered list of all documents and information submitted with the Application. It provides a plain English description of the information contained in each document, electronic file names, reference numbers for each document, and the relevant regulation reference.

5 VOLUME 2 – PLANS, DRAWINGS AND SECTIONS

5.1.1 This volume contains the plans which show where and how the Applicant proposes to undertake the Proposed Development. Each set of plans is accompanied by a legend which shows the symbols used on the plans, to help users understand what they show. In accordance with Regulation 5(4) of the APFP Regulations, where there are three or more separate drawing sheets, a key plan is provided to enable the reader to understand the relationship between the different sheets.

5.1.2 The **Location Plans [EN0110020/APP/2.1.1]** identifies the location of the Proposed Development in its wider context.

5.1.3 The **Land Plans [EN0110020/APP/2.2]** illustrates the land required for or affected by the Proposed Development. This includes (a) land over which it is proposed to exercise powers of compulsory acquisition or any right to use land (b) land in which it is proposed to extinguish easements, servitudes, and other private rights and (c) land over which temporary possession is sought. These plans correspond to the **Book of Reference [EN0110020/APP/4.3]**.

5.1.4 The **Works Plans [EN0110020/APP/2.3.1]** demonstrate the relationship between the location of the Proposed Development and the limits of deviation within which the development and works may be carried out. The areas on the Works Plans are numbered, and these correspond to the numbered works set out in Schedule 1 of the **Draft DCO [EN0110020/APP/3.1.1]** which are proposed to be authorised by the DCO.

5.1.5 The **Streets, Rights of Way and Access Plans [EN0110020/APP/2.4]** illustrate any new or altered means of access, permanent and temporary alteration of streets, street works and authorisation of use of motor vehicles over public rights of way.

5.1.6 The **Traffic Regulations Plans [EN0110020/APP/2.5]** show details of those stretches of road on which temporary traffic regulation measures are proposed for the Proposed Development.

5.1.7 The **Statutory and Non-Statutory Ecological Sites [EN0110020/APP/2.6] illustrates** the habitats of protected species, important habitats or other diversity features as relevant to the Proposed Development.

5.1.8 The **Statutory and Non-Statutory Historic Assets [EN0110020/APP/2.7]** illustrates the statutory and non-statutory sites or features of the historic assets as relevant to the Proposed Development.

5.1.9 The **Crown Land Plan [EN0110020/APP/2.8]** set out the crown land required for the Proposed Development and any crown land that would otherwise be affected.

5.1.10 The **Vegetation Removal Plan [EN0110020/APP/2.9.1]** addresses which areas of vegetation are to be removed from the Order Limits as part of the Proposed Development.

5.1.11 Other plans/drawings illustrating the Proposed Development are provided within the **Environmental Statement [EN0110020/APP/6.1 – 6.21]**.

6 VOLUME 3 – DRAFT DEVELOPMENT CONSENT ORDER

6.1.1 In order to build the Proposed Development, the Applicant needs consent in the form of a DCO. The DCO and associated documents outline the legal powers the Applicant is seeking.

6.1.2 The **Draft DCO [EN0110020/APP/3.1.1]** is the draft statutory instrument which contains the legal powers that the Applicant is seeking to enable it to construct, operate (including maintenance), and decommission the Proposed Development, should consent to be granted. It sets out the parameters for what development would be permitted. It is comprised of 51 articles and 13 schedules. The Schedules are outlined below:

- Schedule 1 – Authorised Development
- Schedule 2 – Requirements
- Schedule 3 – Legislation to be Disapplied
- Schedule 4 – Alteration of Streets
- Schedule 5 – Streets and Public Rights of Way to be Temporarily Closed or Restricted
- Schedule 6 – Access to Works
- Schedule 7 – Traffic Regulation Measures
- Schedule 8 – Land of which temporary possession may be taken and new rights etc. may be acquired
- Schedule 9 – Modification of compensation and compulsory purchase enactments for the creation of new rights and imposition of new restrictive covenants
- Schedule 10 – Acquisition of wayleaves, easements and other rights
- Schedule 11 – Protective Provisions
- Schedule 12 – Hedgerows and Trees
- Schedule 13 – Documents to be Certified

6.1.3 The **Explanatory Memorandum [EN0110020/APP/3.2]** explains the purpose and effect of each provision in the draft DCO including why it is considered necessary. It also identifies examples of precedents from other DCOs where applicable.

6.1.4 The **Draft DCO Validation Report [EN0110020/APP/3.3]** is also provided and confirms the validation of the **Draft DCO [EN0110020/APP/3.1.1]**.

7 VOLUME 4 – COMPULSORY ACQUISITION INFORMATION

7.1.1 Part 4 provides the evidence to justify the legal powers sought for compulsory acquisition as well as information on how the Proposed Development is to be funded.

7.1.2 The **Statement of Reasons [EN0110020/APP/4.1]** explains that there is a compelling case in the public interest which would justify the Applicant's exercise of powers of compulsory acquisition in order to acquire land and rights permanently and to use land temporarily to enable it to construct, operate, maintain and decommission the Proposed Development. The **Land and Rights Negotiations Tracker [EN0110020/APP/4.4]** should be read alongside the **Statement of Reasons [EN0110020/APP/4.1]**, which sets out the status of negotiations with landowners and the powers sought over the Order Land.

7.1.3 The **Funding Statement [EN0110020/APP/4.2]** details how the Proposed Development, including any compulsory purchase acquisition, would be funded.

7.1.4 The **Book of Reference [EN0110020/APP/4.3]** identifies all the parties who own or occupy land and/or have an interest in or right over the land affected by the Proposed Development and/or who may be entitled to make a 'relevant claim' as defined in Section 57 of the 2008 Planning Act. It is structured in five parts in accordance with the regulatory requirements:

- Part 1 contains the names and addresses of each person within Categories 1 and 2 as set out in section 57;
- Part 2 contains the names and addresses for service of each person within Category 3 as set out in section 57;
- Part 3 contains the names of all those persons who it is considered may have their private rights over land affected by the Order;
- Part 4 specifies the owner of any Crown interest in the land which is proposed to be used for the purposes of the order for which application is being made; and
- Part 5 identifies land the acquisition of which is subject to Special Parliamentary Procedure under particular circumstances, including Special Category Land.

7.1.5 The **Land and Rights Negotiations Tracker [EN0110020/APP/4.4]** sets out a summary of discussions with the landowners (freehold / leasehold) within the Order Limits and the status of any voluntary agreements reached.

8 VOLUME 5 – REPORTS AND STATEMENTS

8.1.1 Volume 5 includes reports and statements pertaining to the Proposed Development.

8.1.2 Section 37(3)(c) of the PA 2008 requires that applications for Development Consent are accompanied by a **Consultation Report [EN0110020/APP/5.1]** and its supporting appendices. The Consultation Report explains how the Applicant has complied with the consultation requirements set out in the PA 2008; the APFP Regulations and the EIA Regulations. The report also accords with the guidance set out in the Planning Inspectorate's Advice on the Consultation Report (published August 2024), the Planning Inspectorate's advice Pre-application stage for Nationally Significant Infrastructure Projects (published April 2024), and the Nationally Significant Infrastructure Projects: 2024 Pre-Application prospectus where relevant.

8.1.3 The **Consultation Report [EN0110020/APP/5.1]** is structured as follows:

- Chapter 1: Executive Summary
- Chapter 2: Introduction
- Chapter 3: Non-Statutory Consultation and Engagement
- Chapter 4: EIA Scoping
- Chapter 5: Development of the Statement of Community Consultation
- Chapter 6: Statutory Consultation
- Chapter 7: Responses to the Consultation
- Chapter 8: Adequacy of Consultation Milestone
- Chapter 9: Targeted Consultation and Ongoing Engagement
- Chapter 10: Conclusions

8.1.4 **Consultation Report – Appendices** are included within the report as follows:

- Appendix A: Non-statutory Consultation and Engagement
- Appendix B: SoCC Development
- Appendix C: Statutory Consultation Notification
- Appendix D: Statutory Consultation Materials
- Appendix E: Statutory Consultation Feedback (Part 1)
- Appendix E: Statutory Consultation Feedback (Part 2)
- Appendix F: Targeted Consultation
- Appendix G: Adequacy of Consultation Milestone Report
- Appendix H: Engagement after Statutory Consultation
- Appendix I: Compliance

8.1.5 The **Statutory Nuisance Statement [EN0110020/APP/5.2]** identifies the matters set out in Section 79 of the Environmental Protection Act in 1990 in respect of

statutory nuisances and considers whether the Proposed Development would engage one or more of hose matter, as required by Regulation 5(2)(f) of the APFP Regulations. Where any matters may be potentially engaged, this statement sets out its proposals for mitigating or limiting them.

8.1.6 The purpose of the **Consents and Agreements Position Statement [EN0110020/APP/5.3.1]** is to provide information on the additional consents and licences that are or may be required outside of the DCO to construct and operate the Proposed Development.

8.1.7 The **Planning Statement [EN0110020/APP/5.4.1]** details the Proposed Development's compliance with the relevant planning policy framework at national and local levels and other matters which the Applicant considers are important and relevant to the Secretary of State's decision. As part of the Planning Statement, there are three appendices including the following:

- Appendix 1 - Site Selection Report
- Appendix 2 - Green Belt Assessment

8.1.8 The **Policy Compliance Document [EN0110020/APP/5.5]** provides a comprehensive assessment of the Proposed Development against the relevant policy and guidance documents.

8.1.9 The **Potential Main Issues for Examination [EN010020/APP/5.6]** document summarises the principal areas of disagreement with Statutory Undertakers on the proposals to inform the examination of the Proposed Development.

8.1.10 The **Design Approach Document (DAD) [EN0110020/APP/5.7]** provides information regarding the context of the Proposed Development's location and context, the design approach and evolution, the green infrastructure strategy, and the detailed design process.

8.1.11 The **Statement of Need [EN010020/APP/5.8]** explains the need for the Proposed Development, supporting the case made in the National Policy Statements relevant to energy infrastructure for low carbon energy generation which is of critical national priority. It draws upon established and emerging primary analysis and opinion by respected third parties, to support the case that the Proposed Development is required to ensure that the UK remains on track to meet its legally binding carbon emissions reduction targets while enhancing national security of supply, and at a cost which, in relation to other electricity generation infrastructure developments, provides value for money for end-use consumers.

8.1.12 The **Outline Construction Environmental Management Plan (oCEMP) [EN0110020/APP/5.9]** sets out the measures that will be included in a detailed Construction Environmental Management Plan to control potential environmental and amenity impacts of construction. In addition, the management plan provides a framework for construction environmental controls.

8.1.13 The **Outline Operational Environmental Management Plan (oOEMP) [EN0110020/APP/5.10]** sets out the measures that will be included in a detailed Operational Environmental Management Plan to control potential environmental and amenity impacts of the operation of the Proposed Development. In addition, the management plan provides a framework for operational environmental controls.

8.1.14 The **Outline Decommissioning Environmental Management Plan (oDEMP) [EN0110020/APP/5.11]** sets out the measures that will be included in a detailed Decommissioning Environmental Management Plan to control potential

environmental and amenity impacts of decommissioning. In addition, the management plan provides a framework for decommissioning environmental controls.

8.1.15 The **Outline Construction Traffic Management Plan (oCTMP) [EN0110020/APP/5.12.1]** sets out the measures that will be provided in a detailed Construction Traffic Management Plan for the traffic generated during the Proposed Development's construction phase.

8.1.16 The **Outline Landscape and Ecology Management Plan (oLEMP) [EN0110020/APP/5.13]** provides a framework for delivering the green infrastructure elements of the Proposed Development for the pre-construction and operational phase of the development including the successful establishment and future management of the proposed landscape and ecological works for the duration of its operation.

8.1.17 The **Outline Public Rights of Way Management Plan [EN0110020/APP/5.14]** outlines how Public Rights of Way (PRoW) and Permissive Paths will be managed by the Applicant for the Proposed Development. This is to ensure that they have been suitably considered and are able to operate, in terms of both user safety and accessibility, during the construction, operation and decommissioning of the Proposed Development.

8.1.18 The **Outline Battery Safety Management Plan (oBSMP) [EN0110020/APP/5.15]** sets out the risks associated with BESS fires and sets out the commitments/measures proposed to minimise the impact of such an incident during construction, operation and decommissioning of the Proposed Development.

8.1.19 The **Outline Written Scheme of Investigation (oWSI) [EN0110020/APP/5.16]** provides a framework and principles within which any subsequent Written Schemes of Investigation must substantially accord with to ensure the protection and investigation of archaeological remains during construction.

8.1.20 The **Outline Surface Water Drainage Strategy (oSWDS) [EN0110020/APP/5.17]** sets out the key management and monitoring procedures in relation to surface water and drainage that will be required for the Proposed Development.

8.1.21 The **Outline Skills and Supply Chain Management Plan (oSSCMP) [EN0110020/APP/5.18]** outlines how the Applicant would promote the delivery of economic benefits generated by the Proposed Development to people and businesses across the local region.

8.1.22 The **Outline Cable Construction Method Statement (oCCMS) [EN0110020/APP/5.19]** sets out the details on how the grid connection corridor, linking Whitestone 1, Whitestone 2 and Whitestone 3 with the grid connection, will be constructed.

9 VOLUME 6 – ENVIRONMENTAL STATEMENT

9.1.1 The Applicant has conducted an Environmental Impact Assessment for the Proposed Development to consider what significant effects the Proposed Development is likely to have on the surrounding environment.

9.1.2 Volume 6 reports the findings of the EIA within the **Environmental Statement (ES) [EN0110020/APP/6.1 – 6.21]** and its supporting figures **[EN0110020/APP/6.19]** and **appendices [EN0110020/APP/6.20]**. A **Non-Technical Summary [EN0110020/APP/6.21]** of the ES has also been submitted within Volume 3 of the ES.

9.1.3 Volume 1 of the Environmental Statement **[EN0110020/APP/6.1 – 6.5]** is formed of the following chapters:

Volume 1 of the Environmental Statement
Chapter 1 – Introduction [EN0110020/APP/6.1]
Chapter 2 – EIA Methodology [EN0110020/APP/6.2]
Chapter 3 – Site and Surrounding Area [EN0110020/APP/6.3]
Chapter 4 – Alternatives and Design Evolution [EN0110020/APP/6.4]
Chapter 5 – The Proposed Development [EN0110020/APP/6.5]

9.1.4 Volume 2 of the Environmental Statement **[EN0110020/APP/6.6 – 6.18]** is formed of the following chapters:

Volume 2 of the Environmental Statement
Chapter 6 - Biodiversity and Nature Conservation [EN0110020/APP/6.6.1]
Chapter 7 - Landscape and Visual Impact Assessment [EN0110020/APP/6.7]
Chapter 8 - Cultural Heritage and Archaeology [EN0110020/APP/6.8]
Chapter 9 - Ground Conditions and Land Quality [EN0110020/APP/6.9]
Chapter 10 - Water Resources and Flood Risk [EN0110020/APP/6.10]
Chapter 11 - Climate Change and Greenhouse Gas Assessment [EN0110020/APP/6.11]
Chapter 12 - Air Quality [EN0110020/APP/6.12]
Chapter 13 - Traffic and Transport [EN0110020/APP/6.13]
Chapter 14 - Noise and Vibration [EN0110020/APP/6.14]
Chapter 15 - Socio-Economics and Land Use [EN0110020/APP/6.15]
Chapter 16 - Other Environmental Topics [EN0110020/APP/6.16]
Chapter 17 - Cumulative Effects [EN0110020/APP/6.17]
Chapter 18 – Summary of Significant Effects [EN0110020/APP/6.18]

9.1.5 The Environmental Statement is accompanied by the following **Figures Supporting Volumes 1 and 2 [EN0110020/APP/6.19]**:

10 VOLUME 7 – ADDITIONAL PRESCRIBED INFORMATION FOR SPECIFIC TYPES OF PROJECTS

10.1.1 Volume 7 provides other documents which the Applicant has submitted to adhere to the APFP Regulations and/or which are considered by the Applicant to be required to support the Application.

10.1.2 The **Grid Connection Statement [EN0110020/APP/7.1.1]** has been submitted in accordance with Regulation 6(1)(a)(i) of the APFP Regulations. It outlines the details for connecting the solar PV arrays to the National Grid.

10.1.3 The **BESS Plume Assessment [EN0110020/APP/7.2]** provides an assessment of the potential credible worst case air quality impacts of a fire incident at the proposed BESS Compound.

10.1.4 The **outline Design Parameters [EN0110020/APP/7.3]** defines the key design parameters of which the detailed design must adhere to.
