**Subject:** Aquind interconnector

Dear Jake,

I came across an article by A.Termerko published on his own website , 22.July 2025.  
Labour's war on business is a gift to Nigel Farage - Alexander Temerko  
[REDACTED]

In this article he refers to the cost of the project.

"I have repeatedly witnessed this firsthand with my own project, AQUIND. A totally privately financed £2.5bn energy project of huge strategic and economic value"

In the past this project was always referred to a £ 1.2 or £1.3 bn project.

Is PINs aware of this?

Regards,  
Viola Langley
