1. Introduction

1.1 Introduction

- 1.1.1 The Sea Link Project (hereafter referred to as the 'Proposed Project') is a proposal by National Grid Electricity Transmission plc (hereafter referred to as National Grid) to reinforce the transmission network in the South East and East Anglia. The Proposed Project is required to accommodate additional power flows generated from renewable and low carbon generation, as well as accommodating additional new interconnection with mainland Europe.
- 1.1.2 National Grid owns, builds and maintains the electricity transmission network in England and Wales. Under the Electricity Act 1989, National Grid holds a transmission licence under which it is required to develop and maintain an efficient, coordinated, and economic electricity transmission system.
- 1.1.3 This would be achieved by reinforcing the network with a High Voltage Direct Current (HVDC) Link between the proposed Friston substation in the Sizewell area of Suffolk and the existing Richborough to Canterbury 400kV overhead line close to Richborough in Kent.
- 1.1.4 National Grid is also required, under Section 38 of the Electricity Act 1989, to comply with the provisions of Schedule 9 of the Act. Schedule 9 requires licence holders, in the formulation of proposals to transmit electricity, to:
- 1.1.5 Schedule 9(1)(a) '...have regard to the desirability of preserving natural beauty, of conserving flora, fauna and geological or physiographical features of special interest and of protecting sites, buildings and objects of architectural, historic or archaeological interest;' and
- 1.1.6 Schedule 9(1)(b) '...do what [it] reasonably can to mitigate any effect which the proposals would have on the natural beauty of the countryside or on any such flora, fauna, features, sites, buildings or objects'.
- 1.1.7 The purpose of this document is to:
- Confirm the land interests affected by the scheme and the nature and extent of the land rights sought.

1.2 The Proposed Project

- 1.2.1 The Proposed Project would comprise the following elements:

The Suffolk Onshore Scheme

- A connection from the existing transmission network via Friston Substation, including the substation itself. Friston Substation already has development consent as part of other third-party projects. If Friston Substation has already been constructed under another consent, only a connection into the substation would be constructed as part of the Proposed Project.

- A high voltage alternating current (HVAC) underground cable of approximately 1.9 km in length between the proposed Friston Substation and a proposed converter station (below).
- A 2 GW high voltage direct current (HVDC) converter station (including permanent access from the B1121 and a new bridge over the River Fromus) up to 26 m high plus external equipment (such as lightning protection, safety rails for maintenance works, ventilation equipment, aerials, similar small scale operational plant, or other roof treatment) near Saxmundham.
- A HVDC underground cable connection of approximately 10 km in length between the proposed converter station near Saxmundham, and a transition joint bay (TJB) approximately 900 m inshore from a landfall point (below) where the cable transitions from onshore to offshore technology.
- A landfall on the Suffolk coast (between Aldeburgh and Thorpeness).

The Offshore Scheme:

- Approximately 122 km of subsea HVDC cable, running between the Suffolk landfall location (between Aldeburgh and Thorpeness), and the Kent landfall location at Pegwell Bay.

The Kent Onshore Scheme:

- A landfall point on the Kent coast at Pegwell Bay.
- A TJB approximately 800 m inshore to transition from offshore HVDC cable to onshore HVDC cable, before continuing underground for approximately 1.7 km to a new converter station (below).
- A 2 GW HVDC converter station (including a new permanent access off the A256), up to 28 m high plus external equipment such as lightning protection, safety rails for maintenance works, ventilation equipment, aerials, and similar small scale operational plant near Minster. A new substation would be located immediately adjacent.
- Removal of approximately 2.2 km of existing HVAC overhead line, and installation of two sections of new HVAC overhead line, together totalling approximately 3.5 km, each connecting from the substation near Minster and the existing Richborough to Canterbury overhead line.

1.2.2 The Proposed Project also includes modifications to sections of existing overhead lines in Suffolk (only if Friston Substation is not built pursuant to another consent) and Kent, diversions of third-party assets, and land drainage from the construction and operational footprint. It also includes opportunities for environmental mitigation and compensation. The construction phase will involve various temporary construction activities including overhead line diversions, use of temporary towers or masts, working areas for construction equipment and machinery, site offices, parking spaces, storage, accesses, bellmouths, and haul roads, as well as watercourse crossings and the diversion of public rights of way (PROWs) and other ancillary operations.

1.3 This Document

- 1.3.1 This Book of Reference has been prepared for submission, as part of National Grid's application for development consent for the Proposed Project, to the Planning Inspectorate in compliance with Regulation 5(2)(d) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (the "APFP Regulations"), as amended, and in accordance with the Department for Communities and Local Government guidance 'Planning Act 2008: Guidance related to procedures for compulsory acquisition' (September 2013). It has also been prepared in accordance with regulation 7 of the APFP Regulations.
- 1.3.2 The Book of Reference is to be read in conjunction with the Application Document 2.3 Land Plans submitted under Regulation 5(2)(i) of the APFP Regulations. The Land Plans identify:
- all of the land within the Order Limits required for and directly affected by the authorised development;
 - land which may be acquired permanently under the compulsory acquisition powers within the Order limits;
 - land that will be subject to compulsory acquisition powers to acquire permanent rights;
 - land where temporary use powers may be exercised; and
 - land in relation to which it is proposed to extinguish, suspend or interfere with any existing easements, servitudes and other private rights.
- 1.3.3 This Book of Reference forms part of a suite of documents accompanying the application submitted in accordance with Section 55 of the Act and the APFP Regulations and should be read alongside the other DCO Application Documents that relate to the compulsory acquisition and temporary possession powers sought by the Applicant and the need for the Project, including:
- **Application Document 1.3 Navigation Document**
 - **Application Document 3.1 draft Development Consent Order**
 - **Application Document 2.3 Land Plans**
 - **Application Document 2.5 Works Plans**
 - **Application Document 2.4 Special Category Land and Crown Plans**
 - **Application Document 4.2 Statement of Reasons**
- 1.3.4 The Book of Reference document is made up of two separate books of reference for land in Suffolk and land in Kent where compulsory acquisition of some kind is required. The books appear in the following order within the Book of Reference with the format further described below:
- 1.3.5 The Suffolk Onshore Scheme Book of Reference (Parts 1 – 5);
- 1.3.6 The Kent Onshore Scheme Book of Reference (Parts 1 – 5).
- 1.3.7 Each Book of Reference is divided into five parts as prescribed by Regulation 7(1) of the APFP Regulations and the Order land is identified by numbered entries, with each entry related to a coloured plot on the **Application Document 2.3 Land Plans**. Each of

the five Parts is described in the next chapter, together with a brief commentary on how the requirements in the Regulations and the related definitions in the 2008 Act have been interpreted and applied to the collation of each Part of the Book of Reference. The five parts are:

- Part 1 contains the names and addresses for service of each person within Categories 1 and 2 as set out in section 57 (categories for purposes of section 56(2)(d)) of the Act in respect of any land which it is proposed shall be subject to powers of compulsory acquisition, rights to use land, including the right to attach brackets or other equipment to buildings; or rights to carry out protective works to buildings;
- Part 2 contains the names and addresses for service of each person within Category 3 as set out in section 57 of the Act;
- Part 3 contains the names of all those entitled to enjoy easements or other private rights over land (including private rights of navigation over water) which it is proposed shall be extinguished, suspended or interfered with;
- Part 4 specifies the owner of any Crown interest in the land which is proposed to be used for the purposes of the order for which application is being made; and
- Part 5 specifies land the acquisition of which is subject to special parliamentary procedure; which is “special category land” for the purposes of sections 131 and 132 of the Act; and which is replacement land.

- 1.3.8 Each plot is numbered uniquely so that the prefix of the plot number relates to the Land Plan sheet number on which the plot appears. For example, plot number 1/20 is on sheet 1. Note that this is unique to each Book of Reference section, so some numbers do appear twice e.g. 1/1 in both Suffolk and Kent.
- 1.3.9 All plot area measurements in this Book of Reference are approximate, as these measurements are given in square metres, and each measurement is rounded to the nearest whole square metre (no decimal place), unless the plot is smaller than 1 square metre.
- 1.3.10 The **Application Document 2.3 Land Plans** show the Order land and the numbered plots within the Order limits that are listed in the sections of the Book of Reference. Each plot is coloured. The colouring serves to differentiate the type of rights or powers sought for each given plot within the Order limits which corresponds to the respective interest, right or power to be acquired or used. There are instances where a plot may have more than one type of interest, right or powers sought. Where two types of interest, rights or powers are sought over a given plot (such as temporary use during construction, as well as permanent rights to operate and maintain the works), the plot is coloured according to the more extensive power required. There are also white plots where the requirement had dropped away immediately before submission and no land rights are sought.
- 1.3.11 Please note regarding the potential for Category 3 interests as a result of Part 1 claims that appear in Part 2 of the Book of Reference, that environmental assessments are ongoing. Until the assessments for noise and vibrations are completed, a precautionary approach is being used to include all properties in the proximity of receptors that may be impacted. This was identified as being all those receptors within or at the margin of 150m of the Limits of Deviation, being a buffer beyond which professional environmental advice and experience with other National Grid projects suggests it is

unlikely that compensation claims may result from effects of noise or other impacts, especially when taking into account existing conditions and local geography

2. Description of the Book of Reference Parts

2.1 Introduction to the Book of Reference Parts

- 2.1.1 This chapter describes each of the five Parts of the Book of Reference in more detail, together with a brief commentary on how the requirements in the APFP Regulations and the related definitions in the Act have been interpreted and applied to the collation of each Part of this Book of Reference. The tables containing the detail of each Part follow.

2.2 Part 1 of the Book of Reference

- 2.2.1 Part 1 of the Book of Reference is described in Regulation 7(1)(a) of the APFP Regs, as follows;
- “Part 1 contains the names and addresses for service of each person within Categories 1 and 2 as set out in section 57 of the Act (categories for purposes of section 56(2)(d)) in respect of any land which it is proposed shall be subject to:
 - powers of compulsory acquisition;
 - rights to use land, including the right to attach brackets or other equipment to buildings; or
 - rights to carry out protective works to buildings”
- 2.2.2 Part 1 of this Book of Reference lists all the plot numbers within the Order land which are shown on the Application Document 2.3 Land Plans. Part 1 contains names and addresses for every person who is known, after making diligent inquiry, to be an owner, lessee, tenant or occupier of the plot (known as Category 1 owners) or, is interested in or, has the power to sell, convey or release the land (known as Category 2 owners).
- 2.2.3 A person is within Category 1, if the applicant, after making diligent inquiry, knows that the person is an owner, lessee, tenant (whatever the tenancy period), or occupier of the land; see section 57(1) of the Act -
- 2.2.4 A person is within Category 2 if the applicant, after making diligent inquiry, knows that the person –
- Is interested in the land
 - Has power –
 - To sell or convey the land
 - To release the land; (see section 57 (2) of the Act)
- 2.2.5 This includes mortgagees and beneficiaries that may have an interest in the land to which the application for development consent relates.

- 2.2.6 The land identified is comprehensively described and, as required by Regulation 7(1)(a) of the APFP Regulations, includes all the land identified in the Order that is proposed to be subject to:
- powers of compulsory acquisition;
 - rights to use / occupy land, including the right to attach brackets or other equipment, including to buildings; or
 - rights to carry out protective works, including to buildings.
- 2.2.7 National Grid has taken the approach of seeking powers of compulsory acquisition (or acquisition of rights) in respect of all plots of land required permanently for the Project, even where it already holds an interest or presumes it holds an interest in the land. This approach has been taken to ensure that it has the right to acquire the appropriate interests it needs within the Order limits even if an unidentified owner later asserts an interest in land which National Grid believes it holds an interest.
- 2.2.8 By virtue of articles 37 (extinguishment and suspension of private rights), 38 (power to override easements and other rights) and 39 (statutory authority to override easements and other rights), of the Order, all or any rights exercisable over or in respect of the Order Land will be extinguished or overridden insofar as they may interfere with the construction or use of the authorised project. These are subject to article 40 (extinguishment of private rights and restrictive covenants relating to apparatus belonging to National Grid removed from land subject to temporary possession) in respect of apparatus belonging to National Grid which is removed.
- 2.2.9 The description of each plot also includes the reference to the principal land use power(s) sought in the **Application Document 3.1 draft Development Consent Order**.

2.3 Part 2

- 2.3.1 Part 2 of the Book of Reference is required by Regulation 7(1)(b) of the APFP Regulations to contain "the names and addresses for service of each person within Category 3 as set out in section 57 (of the Planning Act 2008)". A person is within Category 3 if, National Grid thinks, having made diligent inquiry, that they would or might be entitled to make a relevant claim as a result of implementing the Order, or as a result of the Order having been implemented, or as a result of the use of the land once the Order has been implemented. A relevant claim is defined in the section 57(6) of the Act. This means:
- a claim under Section 10 of the Compulsory Purchase Act 1965 (compensation where satisfaction is not made for the taking or injurious affection of land subject to compulsory purchase); or
 - a claim under Part 1 of the Land Compensation Act 1973 (compensation for depreciation of land value by physical factors caused by the use of public works); or
 - a claim under Section 152 (3) of the Act where land is injuriously affected by the carrying out of the authorised works.
- 2.3.2 The Book of Reference identifies Category 3 parties/interests in Part 2 as follows:
- Where a person has an interest under Category 3 (i.e. those that would or might have a relevant claim) within the Order land (and therefore within a plot) the person

is included and listed with the relevant plot number in Part 2a (qualifying persons under Section 10 of the Compulsory Purchase Act 1965 and Section 152(3) of the Planning Act 2008).

- Where a person has an interest outside the Order land, but it is National Grid's opinion that they should be included in Part 2 (as potentially being entitled to make relevant Part 1 claim as above), the person is listed in Part 2b (qualifying persons under Part 1 of the Land Compensation Act 1973).

2.4 Part 3

- 2.4.1 Part 3 of the Book of Reference is described in Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 (as amended) (the APFP Regulations) as follows;
- 2.4.2 "Part 3 contains the names of all those entitled to enjoy easements or other private rights over land (including private rights of navigation over water) which it is proposed shall be extinguished, suspended or interfered with"
- 2.4.3 Part 3 of this Book of Reference contains the names of all those with easements or other private rights over land which it is proposed shall be extinguished, suspended or interfered with pursuant to the exercise of powers in the DCO.
- 2.4.4 Certain relevant category 2 persons included within Part 1 of the Book of Reference have also been included within Part 3 where their rights may be considered to be affected. Examples include tenants of the land, or statutory undertakers with services in or under the land, and whose rights over the land are likely to be affected whether the land is required permanently or temporarily. Some persons listed in Part 2 as category 3 persons may also be included.

2.5 Part 4

- 2.5.1 Part 4 of the Book of Reference is described in Regulation 7(1)(d) of the APFP Regulations, this states;
- 2.5.2 Part 4 specifies the owner of any Crown interest in the Order land which is proposed to be used for the purposes of the Order for which application is being made and which includes land belonging to the Government departments. "Crown land" is defined in section 227 of the Act and includes interests belonging to Government departments among other Crown interests.
- 2.5.3 The Order limits include Crown interests.

2.6 Part 5

- 2.6.1 Part 5 of the Book of Reference is described in Regulation 7(1)(e) of the APFP Regulations, this states;
- "Part 5 specifies land –
 - the acquisition of which is subject to special parliamentary procedure;
 - which is special category land;
 - which is replacement land"

- and for each plot of such land within which it is intended that all or part of the proposed development and works shall be carried out, the area in square metres of that plot.’

2.6.2 Land required for the project which is subject to special parliamentary procedure, is special category land or replacement land is listed in Part 5 of the Book of Reference and shown on the **Application Document 2.4 Special Category Land and Crown Land Plans**. The Application Document **4.2 Statement of Reasons** sets out further details in respect of special category land.

2.7 Book of Reference Notes

2.7.1 Part 1 of this Book of Reference provides the area in square metres of each plot of land included in the order limits of the DCO.

2.7.2 The term ‘or thereabouts’ is used in all plot area measurements because these measurements are given in square metres and each measurement is rounded up to the nearest whole square metre, unless the plot is smaller than 1 square metre.

2.7.3 Each plot of land shown in this Book of Reference has been given a reference which is unique within each scheme but not necessarily between those schemes i.e. Suffolk Onshore Scheme, Kent Onshore Scheme will both have a plot referred to as 1/1. The first number relates to the Land Plans sheet on which the plot is located with each scheme having a separate set of plans. The second number differentiates between each plot sequentially. The numbers given to each plot are generally assigned from east to west across each sheet for the onshore schemes.

2.7.4 Where applicable all land interests with a discrete/limited interest should be qualified in the manner of “(in respect of...)” which should be stated beneath the listing of the interest within the Book of Reference. This applies to parts 1 – 4 of the Book of Reference.

2.8 Classification of Interests, Rights and Powers

2.8.1 The powers conferred by the Order to acquire interests and rights and to use land will be exercisable by National Grid in respect of the authorised development. Accordingly, each part of the Book of Reference sets out the respective interest, right or power to be acquired, extinguished, or used, by National Grid in relation to each parcel of land. The interests, rights or powers are described by reference to the classes in the table below. This gives National Grid the ability to acquire or exercise a lesser right or power where appropriate. Some of the classes of interests, rights or powers include other classes as set out in the table so, for instance, if National Grid may acquire Class 2 powers over a parcel of land (Compulsory Acquisition of Rights – Overhead Line), it may exercise Class 8 powers (Temporary use for Construction, Mitigation, Maintenance, and Dismantling of redundant infrastructure) as well. This gives National Grid the ability to acquire or exercise a lesser right or power where appropriate.

2.8.2 For the purpose of this Book of Reference the relevant articles contained in Application Document **3.1 draft Development Consent Order** have been set against the acquisition of various interests and rights and the power to use land temporarily as shown in the table below, thereby informing the reader as to the relevant articles engaged in the Order.

2.8.3 For the purposes of this Book of Reference the acquisition of various interests and rights and the power to use land temporarily for various purposes has been classified as follows:

Table 2.1 Classification of acquisition and temporary use of land and rights

Class	Relevant article in Order	Colour on Plan	Description of Class	Subordinate Class
Class 1 Compulsory Acquisition of land	24 <i>(compulsory acquisition of land)</i>	Brown	Acquisition of all interests and rights in the land	Classes 2, 3, 4, 5, 6, 7, 8 and 9
Class 2 Compulsory Acquisition of Rights—Overhead Line	25 <i>(compulsory acquisition of rights)</i>	Green	Acquisition of rights by the creation of new rights, the imposition of restrictions, or the acquisition of existing rights or benefits of existing restrictions: a) with or without vehicles, plant and equipment to enter the land to construct the overhead electric line and thereafter to use, retain, inspect, maintain, repair, alter, renew and replace or remove; b) with or without vehicles, plant and equipment to enter the land to fell, trim or lop trees and bushes which may obstruct or interfere with the rights sought by the undertaker; c) with or without vehicles, plant and equipment to enter the land to access any adjoining land; d) with or without vehicles, plant and equipment to enter the land to exercise the rights over and across any access route; e) to require the landowner not to do or suffer anything to be done upon the land which may interfere with or cause	Classes 3, 4, 5, 6, 7, 8 and 9

Class	Relevant article in Order	Colour on Plan	Description of Class	Subordinate Class
			damage to the overhead electric line, including without limitation impose clearance restrictions, not to erect any building or structure or allow any plant or tree to grow within the land, not to change the level of the surface, ground cover or composition of the land or do or allow to be done anything that may cause the level of the surface, ground cover or composition to be altered, not to drill, dig or break up the land; f) to fly over, use on, and recover from the land robots, helicopters, drones, gadgets or similar devices either remote controlled or autonomous, including for the purposes of inspection and maintenance; g) to construct and install land drains cut-off drainage and/or run-off drainage systems (including all necessary supports) soakaways and attenuation ponds on the land, and thereafter to infill and/or retain and make use of, including from time to time to inspect, cleanse, maintain, repair, remove, reinstate, renew, alter and replace, the same; h) to carry out any other works, including environmental mitigation, necessary or expedient to the land and listed in Schedule 1 of the Order; and i) to carry out any activities ancillary or incidental thereto.	

Class	Relevant article in Order	Colour on Plan	Description of Class	Subordinate Class
Class 3 Compulsory Acquisition of Rights— Underground Cable System	25 (<i>compulsory acquisition of rights</i>)	Orange	Acquisition of rights by the creation of new rights, the imposition of restrictions, or the acquisition of existing rights or benefits of existing restrictions: - with or without vehicles, plant and equipment to enter the land to construct the underground cable system and thereafter to use, retain, inspect, maintain, repair, alter, renew and replace or remove; - with or without vehicles, plant and equipment to enter the land to fell, trim or lop trees and bushes which may obstruct or interfere with the rights sought by the undertaker; - with or without vehicles, plant and equipment to enter the land to access any adjoining land; - with or without vehicles, plant and equipment to enter the land to exercise the rights over and across any access route; - to require the landowner not to do or suffer anything to be done upon the land which may interfere with or cause damage to the underground cable system, including without limitation impose clearance restrictions, not to erect any building or structure or allow any plant or tree to grow within the land, not to change the level of the surface, ground cover or composition of the land or do or allow to be done anything that may cause the level of the surface, ground cover or composition to be	Classes 4, 5, 6, 7, 8 and 9

Class	Relevant article in Order	Colour on Plan	Description of Class	Subordinate Class
			altered, not to drill, dig or break up the land; f. to fly over, use on, and recover from the land robots, helicopters, drones, gadgets or similar devices either remote controlled or autonomous, including for the purposes of inspection and maintenance; g. to construct and install land drains cut-off drainage and/or run-off drainage systems (including all necessary supports), soakaways and attenuation ponds on the land, and thereafter to infill and/or retain and make use of, including from time to time to inspect, cleanse, maintain, repair, remove, reinstate, renew, alter and replace, the same; h. to carry out any other works, including environmental mitigation, necessary or expedient to the land and listed in Schedule 1 of the Order; and i. to carry out any activities ancillary or incidental thereto.	
Class 4	25 (<i>compulsory acquisition of rights</i>)	Grey	Acquisition of rights by the creation of new rights, the imposition of restrictions, or the acquisition of existing rights or benefits of existing restrictions: a. with or without vehicles, plant and equipment to enter the land to construct and use the same as a construction compound in connection with the works;	Classes 5,6, 7, 8 and 9

Class	Relevant article in Order	Colour on Plan	Description of Class	Subordinate Class
			b. to install and maintain mitigation measures; c. to carry out works necessary or expedient to the land and listed in Schedule 1 of the Order; and d. to carry out activities ancillary thereto.	
Class 5 Compulsory Acquisition of Rights - Access	25 <i>(compulsory acquisition of rights)</i>	Dark blue	Acquisition of rights by the creation of new rights, the imposition of restrictions, or the acquisition of existing rights or benefits of existing restrictions: a. of way with or without vehicles, plant and equipment at all times over the land; b. to remove any buildings, structures, pylons, apparatus, equipment, and vegetation from that land; c. to require the landowner not to do or suffer anything to be done upon the land which may interfere with the undertaker's access, including without limitation not to erect any building or structure or allow any plant or tree to grow within the land, not to change the level of the surface, ground cover or composition of the land or do or allow to be done anything that may cause the level of the surface, ground cover or composition to be altered, not to drill, dig or break up the land; d. to require the landowner not to do or suffer	Classes 6, 7, 8 and 9

Class	Relevant article in Order	Colour on Plan	Description of Class	Subordinate Class
			anything to be done upon the land which may interfere with sight lines associated with the undertaker's access, including without limitation not to erect any building or structure or allow any plant or tree to grow within the land insofar as it may interfere with sight lines, not to change the level of the surface, ground cover or composition of the land or do or allow to be done anything that may cause the level of the surface, ground cover or composition to be altered, not to drill, dig or break up the land; e. to construct, use or maintain works (including the provision of means of access); f. to construct and install land drains cut-off drainage and/or run-off drainage systems (including all necessary supports), soakaways and attenuation ponds on the land, and thereafter infill and/or to retain and make use of, including from time to time to inspect, cleanse, maintain, repair, remove, reinstate, renew, alter and replace, the same; and g. to carry out activities ancillary thereto.	
Class 6	25 (<i>compulsory</i>)	Purple	Acquisition of rights by the creation of new rights, the	Classes 7, 8 and 9

Class	Relevant article in Order	Colour on Plan	Description of Class	Subordinate Class
Compulsory Acquisition of Rights - Drainage	<i>acquisition of rights)</i>		imposition of restrictions, or the acquisition of existing rights or benefits of existing restrictions: - with or without vehicles, plant and equipment to enter the land to construct and install land drains, cut-off drainage and/or run-off drainage systems (including all necessary supports), soakaways and attenuation ponds on the land and the means of access to them; - thereafter to infill and/or make use of, including from time to time to inspect, cleanse, maintain, repair, remove, reinstate, renew, alter and replace, the same (including the means of access); - to carry out activities ancillary thereto; and - to require the landowner not to do or suffer anything to be done upon the land which may interfere with the drainage systems, soakaways or attenuation ponds, including without limitation not to erect any building or structure or allow any plant or tree to grow within the land insofar as it may interfere with the drainage systems, not to change the level of the surface, ground cover or composition of the land or do or allow to be done anything that may cause the level of the surface,	

Class	Relevant article in Order	Colour on Plan	Description of Class	Subordinate Class
			ground cover or composition to be altered, not to drill, dig or break up the land;	
Class 7 Compulsory Acquisition of Rights – Mitigation	25 (<i>compulsory acquisition of rights</i>)	Light blue	Acquisition of rights by the creation of new rights, the imposition of restrictions, or the acquisition of existing rights or benefits of existing restrictions: - with or without vehicles, plant and equipment to enter the land to construct and install mitigation measures (including all necessary supports) on the land and the means of access to them; - thereafter to retain and make use of, including from time to time to inspect, cleanse, maintain, repair, remove, reinstate, renew, alter and replace, the same (including the means of access); - to carry out activities ancillary thereto and - to require the landowner not to do or suffer anything to be done upon the land which may interfere with the mitigation measures, including without limitation not to erect any building or structure or allow any plant or tree to grow within the land insofar as it may interfere with the mitigation measures, not to change the level of the surface, ground cover or composition of the land	Classes 8 and 9

Class	Relevant article in Order	Colour on Plan	Description of Class	Subordinate Class
			or do or allow to be done anything that may cause the level of the surface, ground cover or composition to be altered, not to drill, dig or break up the land;	
Class 8	Article 27 Temporary use for Construction, Mitigation, Maintenance, and Dismantling of redundant infrastructure Article 28 (<i>temporary use of land for carrying out the authorised project</i>) Article 29 (<i>temporary use of land for maintaining the authorised project</i>) Article 29 (<i>use of subsoil under or airspace over streets</i>)	Pink	The power to enter on and take temporary possession of the land including to: a. construct temporary works (including the provision of means of access and drainage works), and buildings, structures, apparatus or equipment on that land; b. construct any works specified in relation to that land in [column (4) of Part 1 of Schedule [11]] of the Order (land of which only temporary possession may be taken); c. carry out any other works to the land which are necessary or expedient and listed in Schedule 1 of the Order; d. remove any electric lines, electrical plant, buildings, structures, pylons, apparatus and vegetation from that land; e. to carry out mitigation works in relation to that land; f. to gain access to the land for any of the above; g. to fly over, use on, and recover from the land robots, helicopters, drones, gadgets or similar devices either remote controlled or autonomous; h. to construct and install land drains, cut-off drainage	Class 9
