1. Cultural Heritage Gazetteers

Table 1.1 Designated Assets within the Study Area

Asset ID (NHLE)	Designation/Grade	Name	Period	Description	NGR	Distance from Order Limited (km)
1287864	Grade II* Listed	CHURCH OF ST MARY	Medieval	Remains of C11 structure in north wall; some C12 work; Main body of the church C14 and C15; post-Reformation additions of several dates, detailed below; restorations and redecorations of the late C19 and early C20 concentrated at the west and east ends respectively. Flint with cement rendering; brick porch and buttresses; roof of tile with lower verge of slate.	TM 41350 60488	92
1278252	Grade II* Listed	CHURCH OF ST MARY MAGDALENE	Medieval	Nave, chancel, west tower, south porch, north vestry. Mainly random flint with stone dressings, some brickwork to nave; roofs of nave, chancel and porch of plain tiles with crest tiles. Early C15 tower: square, unbuttressed, crenellated parapet; 2 string courses to bell-chamber stage, the one immediately below the parapet with some carved heads; 2-light semi-circular headed bell-chamber openings; west face with one 2-light window (fragments of medieval glass) and one single-light window with square hood mould; below lower window is a carved stone shield bearing the de la Pole arms. Nave probably C14: south wall with one late C19 3-light window in Perpendicular style, north wall with 2 2-light C15	TM 39095 61594	304

			windows with square hood moulds (one window largely original), blocked doorway.		
1268184	Grade II* Listed	CHURCH OF ST JOHN BAPTIST	Medieval	C14 west tower: south chapel at east end of south aisle 1308 for Robert Swann, restored 1948: north aisle rebuilt 1853 by Henry Roberts: restoration 1872-73 by RM Phipson including rebuilding of south aisle, removal of south porch and partial reconstruction of chancel: north transeptal vestry added 1907-8 by Brown & Burgess of Ipswich.	TM 38900 62941 330
1215741	Grade II* Listed	Friston Post Mill	Post-Medieval	A post mill, built 1812, raised by the addition of a brick roundhouse and altered in approximately 1872, with maintenance and structural work undertaken in the late C20 and early C21.	TM 41131 60114 432
1215744	Grade II Listed	WOODSIDE FARMHOUSE	Post-Medieval	Farmhouse. C17-C18, the part to the south of the stack being a later addition. Timber-framed and plastered, brick end gable to south, pantiled roof. 2-storeys. 3 window range, 2 and 3-light casements. Plain boarded doors. Ridge stack. C20 lean-to extension to rear.	TM 41233 60626 6
1269753	Grade II Listed	GORSEHILL	Post-Medieval	Country House. 1928 by Horace Field. Red brick laid in stretcher bond; machine tile roofs in 5 parallel ranges with hipped gables to west. Neo-Georgian style.	TM 45642 58312 34
1231179	Grade II Listed	WOOD FARMHOUSE	Post-Medieval	Farmhouse. C17. Timber framed and plastered, brick gable end to west, now cement rendered, later rendered brick wing to south; pantiled roof. Original house with T shape plan.	TM 39369 62492 37
1216049	Grade II Listed	HIGH HOUSE FARM	Post-Medieval	Farmhouse. C17. Timber framed and plastered, with later brick casing and render to parts; C20 plain tiles L-shape plan. 2-storeys and attic. Windows mainly C19 casements.	TM 40965 61696 40

1215743	Grade II Listed	LITTLE MOOR FARM	Post-Medieval	House. C17. Timber framed and plastered with brick casing to ground floor; pantiled roof. 2-storeys. 4 window range, casements, some with leaded panes. Two original diamond mullion windows remain. Plain boarded doors; ridge stack.	TM 41228 61678	42
1287971	Grade II Listed	NUMBERS 1 AND 2 (CHURCH WALLS), NUMBER 3 AND NUMBER 4 (CHURCH WALLS COTTAGE)	Post-Medieval	Row of 3 cottages. C17 with C19 extension to north. Timber framed and plastered with brick end gable to south, thatched roof. Single-storey and attic.	TM 41302 60463	73
1216066	Grade II Listed	FRISTON HOUSE	Post-Medieval	Early C19, with later additions to rear. Yellow brick, slate roof. 2-storeys. 3 window range, sashes with glazing bars, flat brick arches. Central doorway with engaged Tuscan columns, entablature; 8-panel door, rectangular fanlight with ornamental iron glazing bars.	TM 40927 60734	84
1231296	Grade II Listed	HILL FARMHOUSE	Post-Medieval	Farmhouse. C17. L shape plan. Timber framed, roughcast render, plaintiled roof. 2 storeys and attic. Various casement windows, some missing; mid C19 corner porch with plaintiled roof, overhang supported on console brackets, small pane sash windows and 6-panel door. Internal stack to south wing, external stack to north wing. Pantiled lean-to extension to east.	TM 39802 61758	84
1278253	Grade II Listed	8-10, CHURCH HILL	Post-Medieval	Formerly one house, now 3 dwellings. C16. Timber framed, roughcast render to front, plastered to rear, north gable end of painted brick with weatherboards above eaves level; pantiled roof with some plaintiled sections to rear.	TM 38873 61701	108
1435814	Grade II Listed	Friston War Memorial	Modern	First World War memorial, 1920, with later additions for the Second World War.	TM 41372 60483	114

1268178	Grade II Listed	HURTS HALL	Post-Medieval	Country house. 1893; south front loggia extended in early C20. Diapered brick with ashlar dressings and rendered window surrounds; machine tile roofs with irregularly placed banks of 2 to 6 octagonal brick stacks. Jacobethan style: elongated rectangle running east-west with entrance to north.	TM 38958 62544	141
1258312	Grade II Listed	GARDEN COTTAGE	Post-Medieval	An early C17 timber-framed and plastered house with brick ends and plinth. 2 storeys. The windows generally are C20 casements (some original casements remain), with lattice leaded lights.	TM 38605 61827	159
1030866	Grade II Listed	THE LIMES	Post-Medieval	House. Early C19. White brick with slated roof. 2 storeys. Symmetrical plan, with brick pilasters to quoins and the centre bay set forward slightly. 3 window range, sashes with glazing bars in cased frames, flat brick arches.	TM 38518 61817	187
1215751	Grade II Listed	DUFFIELD HOUSE	Post-Medieval	Early C19. Painted brick, slated roof. 2-storeys. 3 window range, sashes with glazing bars, flat arches with keystones. Central doorway with pilasters and broken pediment; 2 panel door, elliptical fanlight with radiating and circular glazing bars. End gables with oversailing courses at eaves level. Small hexagonal brick stacks to each gable end.	TM 41313 60260	270
1458741	Grade II Listed	Sternfield War Memorial	Modern	First World War memorial, with later additions.	TM 39089 61580	310
1231300	Grade II Listed	STERNFIELD HOUSE	Post-Medieval	House, formerly the rectory. Late C18, with substantial alterations and additions of 1964-66 by Raymond Erith. Red brick, plaintiled roof. 2 storeys and attic. East facade with 5 window range, 2:1:2, sashes with glazing bars in flush and cased frames, flat brick arches; central doorway with pilasters, broken pediment, 6-panel door with raised and fielded	TM 39145 61583	349

			panels, semi-circular fanlight with decorative glazing bars.		
1268183	Grade II Listed	CHURCH HOUSE	Post-Medieval Formerly known as: Church House CHURCH LANE. House incorporating earlier house with attached stable and loft. Earlier house mid C18 incorporated as rear wing into house of early C19 built at front. Original house of flint and brick under pantiled roof; front house of brick under slate roof with brick end stacks: stable loft weatherboarded.	TM 38846 62992	372
1287772	Grade II Listed	PATTLE'S FARMHOUSE	Post-Medieval Farmhouse. C16-C17. Timber-framed and plastered, pantiles to older part and plaintiles to later wing. L-shape plan. Earlier part to north: single-storey and attic, with gable end to west; 2 dormers.	TM 41565 62176	392
1231355	Grade II Listed	THATCHED COTTAGE	Post-Medieval House. C17. Timber framed and plastered, west gable with brickwork to eaves level; thatched roof. Single storey and attic. 3 window range, casements, some with small panes; asymmetrical doorway with boarded door and simple gabled timber porch; one eyebrow dormer. One internal stack and one external stack to south gable. Mid C20 flat-roofed extension to rear.	TM 39242 61446	396
1269711	Grade II Listed	RED HOUSE	Post-Medieval House. Late C17 core, extended to south early in C18 and given a mid C19 facade to east, forming double-pile plan. Red brick; machine tiled roofs with irregular stacks, including square C17 chimney plinth on rear range, with 7 octagonal flues.	TM 45468 57880	407
1287969	Grade II Listed	GATE AND GATE PIERS 15 METRES NORTH EAST OF FRISTON HALL	Post-Medieval C18 gateway, aligned with the main entrance drive to Friston Hall from the south. Square brick piers surmounted by stone spheres. Ornate wrought iron screen with central opening gate.	TM 40519 60324	417

1278254	Grade II Listed	START FARM	Post-Medieval	Formerly a pair of cottages, now one dwelling. Probably early C19. Painted brick, pantiled roof. Single storey and attic. 3 window range, mid C20 small pane casements, segmental arches; mid C20 boarded door; brick eaves dentil cornice. One flat-roofed dormer. Mid C20 single storey flat-roofed extension to west.	TM 39220 61442	418
1278255	Grade II Listed	34 AND 35, THE STREET	Post-Medieval	Formerly row of 3 cottages, now a pair. Late C18/early C19, the east end probably the later. Painted brick, rendered gable end to west; pantiled roof. 2 storeys. 2-light and 3-light casement windows, segmental arches; 2 boarded doors; brick eaves dentil cornice.	TM 39226 61423	418
1278167	Grade II Listed	1 AND 2, THE STREET	Post-Medieval	Formerly 2 dwellings, now one. Late C17/early C18 to west, early-mid C19 to east. Older part: timber framed, plastered, thatched roof with tiled section below dormer; single storey and attic; 2 window range, 2-light small pane casements, modern glazed door; one flat-roofed dormer, external stack. C19 extension.	TM 39216 61447	421
1215909	Grade II Listed	Friston Hall	Post-Medieval	GV II Original house built late C17 for Sir Henry Johnson; only part of this survives, with C18 and C19 alterations and additions. Brick, slated roof. Two storeys.	TM 40511 60309	424
1268164	Grade II Listed	CROWN HOUSE	Post-Medieval	House. Early C19. Painted brick; shallow pitched hipped slate roof with central ridge stack of red brick. EXTERIOR: 2-storey 3-window front. Central 6-panelled door, the panels with oval and diamond panels. Patterned pilasters to doorcase.	TM 38584 62826	430
1268163	Grade II Listed	THE WHITE HOUSE	Post-Medieval	Formerly known as: No.28 The Shrubbery SOUTH ENTRANCE. House. Late C18 with two early C19 rear extensions. Front of painted brick, right return rendered and whitewashed; slate roof with off centre ridge stack. Lobby-entrance plan.	TM 38578 62838	443

			EXTERIOR: 2-storey 4 window front. Door to left of centre is of 6 fielded panels in doorcase of pilasters, frieze and pediment.		
1268162	Grade II Listed	MONKS COTTAGES	Post-Medieval	Formerly known as: Nos.1, 2 AND 3 SOUTH ENTRANCE. Row of 3 houses. Early C18 with later alterations; left gable end rebuilt in late C20, pargetting to No.22 renewed in C20. Plastered timber-frame, No.22 pargetted; machine tile and plain tile roofs with ridge stack central to Nos 22 & 24, and at left end.	TM 38589 62855 456
1278159	Grade II Listed	STERNFIELD HALL	Post-Medieval	House. L shape plan: south wing late C16, north wing early C19. South wing: timber framed and plastered with C18 red brick casing to west, plaintiled roof; 2 storeys; west facade with 4 window range, small pane casements, segmental arches, asymmetrical doorway with half-glazed door; brick eaves dentil cornice, internal stack.	TM 39050 61355 485

Table 1.2 Non-Designated Assets within the Study Area

Asset ID	Name	Description	Period	X	Y	Distance from Order Limits (m)
ADB 008	Gorse Hill	Flint scatter - flakes and scrapers, probably Neo.	Neolithic	645612.2	258415.6	0
ADB 009	Roman artefact scatter.	Pottery and half a melon bead (possibly mislocated and should be within ADB 014 area).	Roman	646002	258404.5	0
ADB 014	Gorse Hill (Rom)	Scatter of Rom pottery now in Ipswich museum.	Roman	645767.2	258457.8	0
ADB 014	Gorse Hill (Med)	Pottery scatter.	Medieval	645767.2	258457.8	0
ADB 017	Small smock mill, Thorpe Road	Remains of a small smock mill, built in 1800 by Collins of Melton.	19th century to 20th century	646789.5	258296.2	0
ADB 034	World War II anti- tank obstacle.	World War II anti-tank obstacle from Hazlewood Marshes to The Fens (c.2.5 km), visible as earthworks in 1943 but levelled by 1953.	Second World War	644940.2	258484.6	0
ADB 039	World War II 'Diver' HAA battery.	World War II 'Diver' HAA battery, visible immediately north of Eight Acre Covert.	Second World War	644898.4	258533.4	0
ADB 059	Early Post-Medieval relict sea banks.	Relict sea banks, probably early Post-Medieval date, in Aldeburgh parish.	Post-Medieval	646447.1	258212.3	0
ADB 063	World War II anti-aircraft ditches.	World War II anti-aircraft ditches, Aldeburgh.	Second World War	646654.7	258596.5	0

Asset ID	Name	Description	Period	X	Y	Distance from Order Limits (m)
ADB 064	Two probable World War II bomb craters.	Two probable World War II bomb craters, Aldeburgh.	Second World War	646662.8	258306.8	0
ADB 065	Probable Post-Medieval field boundaries to the north of Brick Kiln Cottage.	Probable Post-Medieval field boundaries to the north of Brick Kiln Cottage, Aldeburgh.	Medieval to IPS: Post-Medieval	646038.2	258366	0
ADB 066	A World War II strongpoint and group of bomb craters.	A World War II strongpoint and group of bomb craters in Aldeburgh parish.	Second World War	646278.8	258486.7	0
ADB 067	A World War II strongpoint adjacent to Brick Kiln cottage.	A World War II strongpoint adjacent to Brick Kiln cottage, Aldeburgh.	Second World War	646050.6	258324.7	0
ADB 068	World War II 'Diver' HAA battery.	A World War II Heavy Anti-aircraft Artillery battery in Aldeburgh.	Second World War	645841.2	258406.5	0
ADB 106	A World War II Anti-tank ditch	A World War II Anti-tank ditch, Aldeburgh (formerly MXS19751).	Second World War	646686	257833.2	0
ADB 106	A World War II Anti-tank ditch	A World War II Anti-tank ditch, Aldeburgh (formerly MXS19751).	Second World War	646478.5	257813	0
ADB 107	Post-Medieval relict sea- bank.	A relict sea-bank of Post-Medieval date, Aldeburgh.	Post-Medieval	646535.1	258321.6	0
ADB 154	A c. 3.5km long row of World War II anti-tank cubes from Aldeburgh to Thorpeness.	A circa 3.5 km long row of Second World War anti-tank cubes from Aldeburgh to Thorpeness.	Second World War	646813.3	258098.3	0

Asset ID	Name	Description	Period	X	Y	Distance from Order Limits (m)
ADB 155	World War II anti-tank cubes.	World War II anti-tank cubes, Aldeburgh.	Second World War	646769.2	258293.6	0
ADB 160	The Mear (1783); The Meare C16 & 1976); The Meer (1817); The Haven (1837)	Large mere shown as 'The Meare' in the C16/17; 'The Mear' in 1783; 'The Meer' in 1817; much reduced as 'The Haven' in 1837.	Medieval to IPS: Post-Medieval	646586.6	258726.9	0
ADB 201	Fragmentary linear cropmarks	Undated fragmentary linear ditches are visible as faint cropmarks on aerial photographs on land to the north of South Warren golf course, Aldeburgh.	Unknown	645180.7	258366.8	0
ADB 202	Ditched enclosure system and possible in situ burning North of Aldeburgh	An undated enclosure system possible cropmark enclosure is visible as faint cropmarks on aerial photographs on land to the east of Leiston Road, Aldeburgh.	Roman	645732.3	258428.6	0
ADB 226	Aldeburgh branch railway line	Aldeburgh to Saxmundham branch line.	19th century	646071.2	257929.5	0
ADB 226	Aldeburgh branch railway line	Aldeburgh to Saxmundham branch line.	19th century to IPS: Modern	642461.4	263328.8	0
ADB 334	OUTLINE RECORD - SEA LINK (HEAD ARCH) Geo, (OA) EVAL	OUTLINE RECORD - SEA LINK (HEAD ARCH) Geo, (OA) EVAL	N/A	644966	258558.1	0
ADB 355	Outline Record - Sea Link (OA) EVAL	Outline Record - Sea Link (OA) EVAL	N/A	644608.2	258644	0

Asset ID	Name	Description	Period	X	Y	Distance from Order Limits (m)
ADB 357	Outline Record - Sea Link (OA) EVAL	Outline Record - Sea Link (OA) EVAL	N/A	645997.8	258443.2	0
ADB 358; AECOMS004	Sea Link Geophysical Anomalies.	Area of geophysical anomalies including features recorded in the Headland report as ditches (D1 and D2), areas of magnetic enhancement (ME1 and ME2), and possible burning (B?1). area subject to evaluation trenching which noted one possible Roman kiln/oven as well as other later features associated with the Second World War defences in the area. Generally features appears to be a continuation of Suffolk HER assets ADB014, ADB068, and ADB358.	Prehistoric; Roman; Modern	646030	258560	0
AECOMS005	Sea Link Geophysical Anomalies.	Area of anomalies recorded as part of the Sea Link geophysical survey. Includes assets referred to by Headland as a ditch (D3), an area of magnetic enhancement (ME4), and possible quarrying (Q?1). Linear feature (D3) possibly a continuation of a previously recorded post-medieval trackway	Post-Medieval	645078	258527	0

Asset ID	Name	Description	Period	X	Y	Distance from Order Limits (m)
		recorded to the south (Suffolk HER Ref. ADB201).				
AECOMS006	Sea Link Geophysical Anomalies.	Area of geophysical anomalies recorded as part of the Sea Link project. Includes features interpreted by Headland as a ditch (D4), and an area of magnetic enhancement (ME5). Possibly associated with post-medieval field boundaries or Second World War military remains recorded on the Suffolk HER as ADB039.		644732	258597	0
AECOMS007	Sea Link Geophysical Anomalies.	Area of geophysical anomalies recorded as part of the Sea Link project. Includes features interpreted by Headland as a ditch (D5), and an area of magnetic enhancement (ME6). Area subject to evaluation trenching which suggested possible quarrying as well as other features.	Post-Medieval	644416	258696	0
AECOMS008	Sea Link Geophysical Anomalies.	Area of geophysical anomalies recorded as part of the Sea Link project. Includes features interpreted by Headland as a ditches (D6-D8), a former field	Post-Medieval	644197	258905	0

Asset ID	Name	Description	Period	X	Y	Distance from Order Limits (m)
		boundary (FB1), and quarry pits. Suffolk HER notes one of the ditches as a possible trackway (Suffolk HER Ref. FRS103).				
ARG 050	A World War II strongpoint surrounded by a minefield.	A World War II strongpoint surrounded by a minefield, Aldringham cum Thorpe.	Second World War	646821.1	258175.1	0
ARG 051	An extensive length of World War II beach scaffolding.	An extensive length of World War II beach scaffolding running south from Aldringham cum Thorpe parish.	Second World War	646842.5	257858.6	0
FRS 010	Possible ring ditch of unknown date	Circular cropmark, possibly a ring ditch, of unknown date, is visible on Hazlewood Common.	Unknown	643264.8	258554.2	0
FRS 011	Possible ring ditch of unknown date	Circular cropmark, possibly a ring ditch, of unknown date, is visible on Hazlewood Common.	Unknown	643234	258558.6	0
FRS 012	Hazlewood Common	World War II anti-aircraft obstructions, visible as earthworks on Hazlewood Common.	Second World War	643436.4	258382.6	0
FRS 012	Hazlewood Common	World War II anti-aircraft obstructions, visible as earthworks on Hazlewood Common.	Second World War	643509.6	258212.4	0
FRS 013	Friston Moor	Friston Moor, a former common.	Medieval	640765.8	261666.3	0

Asset ID	Name	Description	Period	X	Y	Distance from Order Limits (m)
FRS 017	Hazlewood Aerodrome	Site of World War I airfield, visible as earthworks and a surviving building.	First World War to 20th century	643838.9	258891.1	0
FRS 018	Three Post-Medieval quarry pits	Three quarries, possibly Post-Medieval, visible immediately north and east of Hazlewood Hall Farm.	Post-Medieval	643478.9	258929.1	0
FRS 048	Friston Hall	Friston Hall and surrounding park and gardens.	Medieval to IPS: Modern	640533.7	260169.8	0
FRS 052	Post-medieval clay pit, visible as an earthwork	Post-Medieval 'clay pit', visible as an earthwork northwest of Marsh Cottages, formerly FOS 012.	Post-Medieval	643589.2	258207.6	0
FRS 053	Post-medieval WW2 bomb crater and emplacement	World War II emplacements visible as earthworks on Hazlewood Common. Formerly FRS 012.	Second World War	643469.5	258221.9	0
FRS 054	Post-medieval WW2 trench, tank trap, military training site	World War II ditch, probably for training purposes, is visible as an earthwork on Hazlewood Common. Formerly FRS 012.	Second World War	643444.1	258294.7	0
FRS 075	OUTLINE RECORD: East Anglia One North/Two Offshore Windfarms western end of corridor (HEAD) GEO (HEAD) EVAL (SPR + HEAD) Test Pits	OUTLINE RECORD: East Anglia One North/Two Offshore Windfarms western end of corridor (HEAD) GEO (HEAD) EVAL (SPR + HEAD) Test Pits.	N/A	641001.5	261202.1	0

Asset ID	Name	Description	Period	X	Y	Distance from Order Limits (m)
FRS 077	Farmstead: Woodside Farm	Woodside Farm is a farmstead visible on the 1st Ed OS map. The farmstead is laid out in a regular L-plan with the farmhouse detached and set away from the yard. The farmstead sits on either side of a public road in a village location.	17th century to 19th century	641218.2	260637.7	0
FRS 083	Farmstead: Hazelwood Hall Farm	Hazelwood Hall Farm is a farmstead visible on the 1st Ed OS map. The farmstead is laid out in a regular U-plan with the farmhouse detached and set away from the yard. The farmstead sits alongside a public road in an isolated location.	19th century	643463.5	258805.6	0
FRS 092	Outline Record - Lion link (WA) GEO (CA) MON anomalies of occupation features	Anomalies of occupation features.	Unknown	640606.4	261217.8	0

FRS 104; AECOMS009	Possible trackway north of Hazelwood Farm, Aldeburgh	Geophysical survey identified a possible trackway of uncertain origin. Area of geophysical anomalies recorded as part of the Sea Link project. Includes features interpreted by Headland as a ditch (D9), a possible enclosure (E?1), and possibly quarrying (Q?2). Historic mapping would suggest that the linear features noted by Headland as D9 is probably related to the former airfield (Suffolk HER Ref. FRS017), and this feature is also recorded as Suffolk HER as FRS104. The enclosure is also recorded by Suffolk HER as FRS105.	Unknown	643674	259085	0
FRS 105	Possible enclosure north of Hazelwood Farm, Aldeburgh	Geophysical survey identified a possible enclosure of uncertain date with a diameter of	Prehistoric; Roman	643508	259263	0

Asset ID	Name	Description	Period	X	Y	Distance from Order Limits (m)
		80 m. Features recorded during the Sea Link Geophysical Survey. Evaluation trenching recorded a number of linear features as well as a number of cremations and one animal burial.				
FRS 107	Enclosures east of Friston	Geophysical survey identified a clear rectangular enclosure measuring 24 m x 32 m close to an area of possible extraction and another less clear possible rectilinear enclosure and a curving ditch. These features are within 650 m of archaeological deposits, identified by earlier surveys and corroborated by subsequent evaluation trenching, dated to the Neolithic, later prehistoric and medieval date. Headland report on the geophysical refer to features as ditches (D12), enclosures/possible enclosures (E3 and E?3), and possible quarries (Q?5).	Unknown	642214	260126	0
FRS 108; AECOMS010	Possible field system Northeast of Park Farm, Aldeburgh.	Geophysical survey recorded a possible field system that does not	Unknown	642930	259623	0

Aldeburgh	Bronze Age Penannular Ring	Complete middle Bronze Age gold penannular ring.	Middle Bronze Age
Knoddishall	Roman metalwork finds scatter and figurine of Minerva	Roman metalwork scatter including, copper-alloy figurine of Minerva, hair pin and 2nd to 4th century coins.	Roman
Knoddishall	Findspot of a small Bronze-Age bronze spearhead	Small bronze pegged spearhead from mud in tractor's tyre. Formerly recorded as KND MISC	Late Bronze Age

Table 1.5 Suffolk Portable Antiquities Scheme Confidential Data

Parish	Name	Description (where available)	Period
Aldeburgh	RING	A complete but distorted solid gold penannular ring dating to the Middle Bronze Age, c. 1550-1150 BC. It is broadly oval in plan view and plano-convex in section, being formed of three 'D' sectioned bands which have been soldered together.	BRONZE AGE to BRONZE AGE
Aldeburgh	vessel	A piece of gun flint of Post-Medieval date. It is rectangular in shape and trapezoidal in section. It is made of dark grey, unpatinated flint.	EARLY MEDIEVAL
Aldeburgh	Brooch	A copper alloy Late Saxon bird brooch. The brooch is in the shape of a bird of prey and is complete except for the pin. The bird has a triangular tail with moulded decoration to represent the feathers.	EARLY MEDIEVAL
Aldeburgh	Hooked Tag	A complete copper alloy hooked tag of Middle to Late Saxon date. The tag is triangular in shape with two circular suspension holes at one terminal end, tapering to a sharp hook at the other.	EARLY MEDIEVAL
Aldeburgh	stirrup	An incomplete copper-alloy late Anglo-Saxon stirrup strap mount, only the lower half of this strap mount survives, the rest is missing due to an old break. It measures 32.5 mm in surviving length.	EARLY MEDIEVAL
Aldeburgh	BROOCH	Flat circular brooch, 23.5 mm in diameter, decorated with a relief animal with its head turned to look backwards. The animal is now rather worn and blurred but has four legs, a tail and a long neck.	EARLY MEDIEVAL
Aldeburgh	HASP	An incomplete cast copper-alloy hasp dating to the late Early-Medieval period, c. 900-1100. Only the lower portion and midsection of the hasp survive intact, with the upper portion broken away in old damage.	EARLY MEDIEVAL to EARLY MEDIEVAL

Parish	Name	Description (where available)	Period
Aldeburgh	WEIGHT	A complete cast lead-alloy hanging weight or spindle whorl dating from the Early Medieval to Medieval periods, c. 1000-1500 AD. It is circular in plan and plano-convex in section, with a rounded upper surface and flattened base.	EARLY MEDIEVAL to MEDIEVAL
Aldeburgh	VESSEL	A rim sherd from a probable Thetford-type ware (TTW) vessel of Early-Medieval/Late Anglo-Saxon date. It has a well fired hard grey fabric with numerous small gritty inclusions, and an out-turned rim with slight lid seating.	EARLY MEDIEVAL to MEDIEVAL
Aldeburgh	harness fitting	A fragment of a copper-alloy lipped terret. Less than half of the loop survives, it is oval in cross-section and curvilinear, measuring c42 mm in length and c7 mm in width.	IRON AGE to ROM
Aldeburgh	BROOCH	An incomplete copper alloy late Iron Age to early Roman rosette/thistle brooch. Only part of the central 'rosette' plate and a small fragment of the bow survive. The surviving part of the plate has a jagged break around its outer edge.	IRON AGE to ROMAN
Aldeburgh	COIN	N/A	MEDIEVAL to
Aldeburgh	vessel	A rim fragment of a cast copper-alloy cooking vessel. This fragment is roughly triangular in shape and measures 75.2 mm in surviving width, 50 mm in surviving height and 4.3 mm in thickness.	MEDIEVAL to
Aldeburgh	seal matrix	A lead pointed oval shaped seal matrix, measuring 26.4 mm in length and 15.8 mm in width. On the back face a central rib can be seen and at one end of this there is the remains of a suspension loop.	MEDIEVAL to
Aldeburgh	sword	A complete copper-alloy pommel. It is over all a roughly lozenge-shape in plan but has eight sides. It measures 32.8 mm in height, 37.3 mm in width and 23.8 mm in thickness.	MEDIEVAL to

Aldeburgh	coin	N/A	MEDIEVAL to
Aldeburgh	coin	N/A	MEDIEVAL to
Aldeburgh	token	N/A	MEDIEVAL to
Aldeburgh	strap end	A folded copper-alloy plate, which is most likely to originally have been the plate of a two piece strap end, the hinge and loop now missing.	MEDIEVAL to
Aldeburgh	coin	A silver penny of William I the Conqueror (1066-1087), 19 mm in diameter, chipped at two points, that has been turned into a coin brooch with small traces of solder for the attachment of the catch on.	MEDIEVAL to
Aldeburgh	thimble	A worn copper-alloy medieval circa 15th century sewing ring, now slightly bent, measuring 17.37 mm in height and 21.6 mm in width.	MEDIEVAL to
Aldeburgh	thimble	A complete bust squashed copper-alloy thimble of 15th century date. It measures 18.9 mm by 11.7 mm in rim length and width and 18.7 mm in height.	MEDIEVAL to
Aldeburgh	ampulla	A lead 15th century pouch-shaped ampulla or holy water carrier, complete apart from missing its suspension lugs which are missing due to old breaks. It is now also bent over.	MEDIEVAL to

Parish	Name	Description (where available)	Period
Aldeburgh	coin	a silver cut half penny, voided long cross type, AD 1247-1297.	MEDIEVAL to
Aldeburgh	buckle	A fragment of a copper-alloy buckle frame attached to a complete copper-alloy folded sheet buckle plate. The bar and part of one side of the frame survives, measuring 15 mm in width	MEDIEVAL to
Aldeburgh	strap fitting	An incomplete and worn copper-alloy strap fitting, rectangular in shape, measuring 29 mm in length and 27 mm in width. Consisting of two sheets of copper-alloy which are held together.	MEDIEVAL to
Aldeburgh	strap fitting	An incomplete probable strap fitting, roughly rectangular in shape one quarter of which is bent backwards on itself. It measures 41 mm in length and 13 mm in width.	MEDIEVAL to
Aldeburgh	COIN	A gold Medieval ducat minted in Hamburg and dated on the reverse to 1497 AD. The coin has been examined by Dr. Martin Allen who notes that he knows of no other examples of Hamburg ducats being found.	MEDIEVAL to MED
Aldeburgh	Coin	A silver long cross penny of Edward I, class 10cf, dating to c. 1302-1310. See Wren, 1995: pp. 76.	MEDIEVAL to MED
Aldeburgh	Buckle	A complete single sheet, folded Medieval copper alloy buckle plate. It is approximately square in shape, although tapers towards the edge opposite the pin slot.	MEDIEVAL to MED
Aldeburgh	COIN	A Medieval silver Irish penny of Edward I (1254-1307), Second coinage, dating to AD;1279-1302. Mint of Waterford City.	MEDIEVAL to MEDIEVAL
Aldeburgh	BUCKLE	An incomplete cast copper-alloy buckle and plate dating to the Medieval period, c. 1250-1400. Around half of the buckle frame survives, though otherwise the object is preserved relatively intact.	MEDIEVAL to MEDIEVAL

Parish	Name	Description (where available)	Period
Aldeburgh	VESSEL	An incomplete ceramic fragment originating from a costrel or bunghole pitcher dating to the Medieval period, c. 1400-1500. Only the bunghole itself (demonstrating a crude circular pouring aperture at its midpoint) and a small amount of the surrounding.	MEDIEVAL to MEDIEVAL
Aldeburgh	BUCKLE	An incomplete cast copper-alloy buckle of possible Medieval date. It has a rectangular frame that is rectangular sectioned and at each side terminates in flattened oval loops. The loops hold in place a separately cast cylindrical bar, enabling bar.	MEDIEVAL to MEDIEVAL
Aldeburgh	MOUNT	A cast copper-alloy mount of Medieval date. It has a lozenge shaped plate that appears to be undecorated but has a domed central boss. At the centre of the back face extends an integrally(?) cast copper-alloy cylindrical rivet that is missing its tip.	MEDIEVAL to MEDIEVAL
Aldeburgh	COIN	A silver Medieval penny of Edward I (AD 1272-1307), long solid cross, class 4, dating to AD 1282-1289. Mint of Bury St Edmunds. North p. 23, no. 1025. The moneyer was Robert de Hadeleie; the Abbot's mint at Bury.	MEDIEVAL To MEDIEVAL
Aldeburgh	VESSEL	Cast copper-alloy leg from a cooking vessel. A low triangle in cross-section, it rises in two convex curves to a central midrib. 30 mm wide at the broken top, it tapers gently to 28 mm in the centre	MEDIEVAL to POS
Aldeburgh	VESSEL	Circular-section cast copper-alloy leg from a cooking vessel, 16 mm in diameter for most of its length. A small fragment of the body of the vessel survives at the top. Encrusted with corrosion.	MEDIEVAL to POS
Aldeburgh	vessel	A worn copper-alloy cast vessel rim from a cooking vessel 1300-1600 AD in date. This rim fragment measures 40.2 mm in width and 35.3 mm in height.	MEDIEVAL to POS

Parish	Name	Description (where available)	Period
Aldeburgh	Ring	A complete cast copper alloy ring measuring 13.31 mm in internal and 17.43 mm in external diameter. The ring is rectangular in section, with some faceting and tool marks visible particularly on the inner.	MEDIEVAL to POS
Aldeburgh	Vessel	An incomplete cast copper alloy vessel foot, probably from a cauldron or skillet. It is oval in section flaring to an out-turned foot and with a shallow groove on the exterior surface.	MEDIEVAL to POS
Aldeburgh	WEIGHT	A complete cast lead-alloy hanging weight of probable late Medieval to early Post-Medieval date, c. 1400-1700. It is broadly sub-conical in form, with a square-section (giving the appearance of faceted sides) and a prominent indentation on its base.	MEDIEVAL to POST-MEDIEVAL
Aldeburgh	THIMBLE	A copper-alloy Medieval to Post-Medieval thimble, dating to AD 1400-1600. It has slightly tapering sides and shallow domed top. The outer surface has a plain band at the base and series of large circular indentations, which cover the body of the thimble.	MEDIEVAL To POST-MEDIEVAL
Aldeburgh	BUCKLE	One loop from a double-looped copper-alloy buckle frame. It is basically oval, but with both exterior and interior edges turning slightly inward and then outward into a central point.	POST-MEDIEVAL t
Aldeburgh	JETTON	N/A	POST-MEDIEVAL t

Aldeburgh	coin	A Elizabeth I threepence, extremely worn with luckily the mint mark visible on the reverse, it is of the third issue 1561-5.	POST-MEDIEVAL t
Aldeburgh	coin	a Charles I rose farthing, 1625-1649	POST-MEDIEVAL t
Aldeburgh	Token	A copper alloy 17th century trade token of Nicholas Shepherd from Saxmundhum, Suffolk. Williamson, 1967: no. 289.	POST-MEDIEVAL t
Aldeburgh	Bell	A complete cast copper alloy spherical or crotal bell of Post-Medieval date. The upper half of the bell is undecorated but has an integral rectangular suspension loop with rectangular perforation.	POST-MEDIEVAL t
Aldeburgh	Cloth seal	A small Post-Medieval lead cloth seal. It comprises a flat disc with a sub-oval shaped hole on the reverse, presumably indicating where a lead rivet would have been pushed through the centre.	POST-MEDIEVAL t
Aldeburgh	Unidentified Object	An incomplete copper alloy triangular shaped object, perhaps a fragment from a mount or applique of some sort. It is flat and rectangular in section, and there are old breaks at either end.	POST-MEDIEVAL t
Aldeburgh	Ferrule	A copper alloy object, probably a ferrule, in the shape of a Medieval/Norman helmet. It is circular in plan and made from a single sheet of copper alloy that is wrapped around to form the circle.	POST-MEDIEVAL t
Aldeburgh	BUCKLE	A complete cast copper-alloy symmetrically double-looped buckle of small size dating to the Post-Medieval period, c. 1550-1650. The buckle is preserved intact, with its wound-wire pin still attached to the strap bar.	POST-MEDIEVAL to POST-MEDIEVAL
Aldeburgh	TOKEN	A copper-alloy Post-Medieval trade token of Thomas Knights of Saxmundham, dating to AD 1648-1669. Obv: *THOMAS KNIGHTS; arms consisting of two chevrons on a shield Rev: *OF.	POST-MEDIEVAL To POST-MEDIEVAL

Parish	Name	Description (where available)	Period
		SAX[M]VNDHAM rosette; K/T E, rosettes in the field. Williamson (1967, p. 1097).	
Aldeburgh	key (locking)	A possible Roman cast copper-alloy key handle. This possible handle consists of an oval loop above a solid rectangular waisted part which has a square hole with corroded iron in the centre.	ROMAN to
Aldeburgh	bow brooch	Copper alloy brooch fragment, Colchester derivative rear hook spring attachment type. Upper half only, missing spring, pin; damaged rear hook; patches of corrosion have removed the surface on the bow.	ROMAN to
Aldeburgh	steelyard weight	A possibly Roman lead steelyard weight. This weight is cylindrical, it is circular in plan and measures 22.3 mm in diameter and 12 mm in thickness. Projecting from the centre of one face of the weight.	ROMAN to
Aldeburgh	Bow Brooch	a copper alloy incomplete Roman bow brooch in two pieces, Colchester derivative. It is corroded, with a D-shaped cross-section to the bow, catchplate missing, broken off just below wings. Incised line.	ROMAN to
Aldeburgh	vessel	pottery sherds found whilst metal detecting. Roman: 1 rim sherd of ? amphora, cream fabric, 31.42g Roman greyware: 6 jar rims, 1 flanged body sherd, 39.22g Roman: shellyware rim, 9.47g 	ROMAN to MEDIEVL
Aldeburgh	Vessel	Various fragments of assorted ceramics comprising: 1)five fine coarse ware rim sherds of Medieval date (c.1300-1500) weighing 33.15g. 2)three coarse grey ware Medieval rim sherds of c.1300-1500.	ROMAN to MEDIEVL
Aldeburgh	spindle whorl	A lead spindle whorl of Roman or later date. Conical in shape with a central circular hole, measuring 20.5 mm in base diameter, 7.4mm in thickness and the hole is 7.5 mm in diameter.	ROMAN to POST MEDIEVAL

Parish	Name	Description (where available)	Period
Aldeburgh	COIN	An incomplete silver Roman denarius of Vespasian, dating to the period AD 69-79 (Reece period 4). AVG surrounded by an oak-wreath reverse type. Uncertain mint.	ROMAN to ROMAN
Aldeburgh	STRAP FITTING	A copper-alloy Roman strap slide, dating to AD 43-402. It consists of a roughly drop-shaped plate, which has a flattened wider end and a half-rounded knop at the pointed one. The flattened end has a slightly recessed protruding semi-oval tab.	ROMAN To ROMAN
Aldeburgh	Coin	A very worn copper alloy coin, possibly a nummus of late third to fourth century AD date. Obverse and reverse are illegible, and it is possible that it is of post-Roman date.	ROMAN to ROMAN
Aldeburgh	harness fitting	An incomplete copper-alloy covered loop terret, measuring 59 mm in total length. The oval loop, through which the rein would have passed is incomplete due to an old break. The loop has an oval cross-section.	ROMAN to ROMAN
Aldeburgh	Weight	A lead spindle whorl of unknown date. It is circular in shape with a flattened conical section and a circular central perforation. The weight measures 18.87 mm in diameter, 11.52 mm in height.	UNKNOWN to
Benhall	COIN	A complete silver medieval voided long cross penny of Henry III, dating to the year AD 1248. Type IIIb. Minted by Nicole of London. North vol.I, no.985/2.	MEDIEVAL to MEDIEVAL
Benhall	COIN	A complete silver post-medieval sixpence of Elizabeth I, dating to the year AD 1562. Second issue. Pheon initial mark.North vol.II, 111, no.1997.	POST-MEDIEVAL to POST-MEDIEVAL
Benhall	FOLDING KNIFE	An incomplete copper alloy Roman zoomorphic folding knife handle, dating to AD 43-402. The handle takes the form of the lower part of a	ROMAN To ROMAN

		panther or lion, depicting the outwards curving chest of the front leg of the animal.	
Benhall	COIN	A copper-alloy Roman as possibly of Caracalla, dating to AD AD 198-217 (Reece Period 10). Reverse type depicting probably priestly implements. Probably mint of Rome.	ROMAN To ROMAN
Friston	metal working debris	Two molten solid fragments of cast copper-alloy which is likely to be metal working debris, this could date from the Bronze Age onwards. 1: Oval shaped, 26.3 mm in length and 20.5 mm in width 5.2.	BRONZE AGE to P
Friston	BROOCH	An incomplete cast copper-alloy Anglo-Saxon/Early-Medieval miniature radiate headed brooch. Only the headplate, part of the bow and pin lug survive intact, the remainder of the brooch now missing.	EARLY MEDIEVAL
Friston	brooch	Fragment of copper-alloy with Style I decoration, perhaps a fragment of an early Anglo-Saxon florid cruciform brooch. It is now folded in half and has signs of burning.	EARLY MEDIEVAL
Friston	Brooch	An incomplete cast copper alloy Anglo-Saxon Small-Long brooch. It is missing the entire brooch beneath the bow, the pin, catchplate and possibly the extremities of the headplate due to old breaks.	EARLY MEDIEVAL
Friston	coin	Edward III groat, 1327-1377.	MEDIEVAL to
Friston	COIN	A silver voided long-cross penny of Henry III, Class III and possibly Class IIIb, c.1248-1250 AD. Wren, 1993: pp. 51-53.	MEDIEVAL to MED
Friston	COIN	A silver voided short-cross penny of Richard I, class 4a, c.1194-1205 AD. Wren, 1992: pp. 48-49.	MEDIEVAL to MEDIEVAL

Parish	Name	Description (where available)	Period
Friston	COIN	A silver Medieval groat of Edward III, Pre-Treaty series, c.1351-1361 AD.	MEDIEVAL to MEDIEVAL
Friston	vessel	A rim sherd from a cast copper-alloy cooking vessel which could date from 1300-1600AD. This sherd measures 63 mm in length and 39.68 mm in width, its original diameter would have been c30 cm.	MEDIEVAL to POST-MEDIEVAL
Friston	mount	An incomplete cast copper-alloy possible mount most likely to be of late medieval or Post-Medieval date. This mount is in the form of the side profile head of a lion, the head and shoulders survives.	MEDIEVAL to POST-MEDIEVAL
Friston	VESSEL	An incomplete cast copper-alloy handle fragment from a vessel of probable Medieval to Post-Medieval date. Only the base of the handle where it joined the body of the vessel survives.	MEDIEVAL to POST-MEDIEVAL
Friston	MOUNT	A copper-alloy mount of probable Medieval date. It is oval in form with flat back face and moulded relief decoration on the front face. The decoration comprises an outer border formed from multiple diagonal notches that give it a corded appearance.	MEDIEVAL to POST-MEDIEVAL
Friston	lithic implement	A flint snapped small long flake of Neolithic or early Bronze Age date. It has a retouched notch and there is retouch on the opposite edge too. There are parallel flake scars on the dorsal face.	NEOLITHIC to BRONZE AGE
Friston	COIN	A copper-alloy one Ore coin of Gustav II Adolph of Sweden, dated on the coin to 1627 AD.	POST-MEDIEVAL t
Friston	Jetton	A copper alloy 'Rose and Orb' jetton of Nuremburg Master Hans Krauwinckel II (Master 1586, Died 1635). As Mitchiner, 1988: no. 1539.	POST-MEDIEVAL t
Friston	strap fitting	A complete copper-alloy early Post-Medieval decorative belt mount. Roughly acorn shaped with a waisted centre and knobs at either end it	POST-MEDIEVAL t

		measures 46.24 mm in length and 24.84mm in width.	
Friston	TOKEN	A copper-alloy 17th century farthing traders token of Nicholas Shepherd from Saxmundham, Suffolk. As Williamson, 1967: p. 1097, no. 290. Obverse: *NICHOLAS.SHEPHERD, The Drapers' Arms not in a shield, all within an inner circle Reverse: *IN.SAXMVNDHA.	POST-MEDIEVAL to POST-MEDIEVAL
Friston	COIN	A worn copper-alloy duit from the province of Friesland, probably of c.17th century or later date.	POST-MEDIEVAL to POST-MEDIEVAL
Friston	HOOKED TAG	An incomplete cast copper-alloy Post-Medieval hooked tag of Read's Early Post-Medieval Class E Type 2. It has a shield shaped openwork plate that is rectangular in section and with a rectangular suspension/sewing loop at the top.	POST-MEDIEVAL to POST-MEDIEVAL
Friston	coin	Very corroded sestertius, possibly Trajan with a neat, dense (but completely illegible) legend.	ROMAN to
Friston	coin	Very worn and corroded, probably Roman coin, perhaps a dupondius as there is a trace of a radiate crown.	ROMAN to
Friston	coin	Sestertius, corroded and worn, Antoninus Pius from the portrait.	ROMAN to
Friston	coin	Corroded radiate.	ROMAN to
Friston	strap fitting	A copper-alloy late Roman strap fitting consisting of a decorated disc with a suspension loop which projects down the back face of the loop as a long tang. Similar strap fittings, or disc attachments.	ROMAN to EARLY
Friston	Hooked Tag	An incomplete copper alloy object of uncertain date. It is flat, rectangular in section, triangular in plan and tapers at one end to a point. At the top of the object the flattened plate curves outwards.	ROMAN to POST M
Friston	COIN	A worn copper-alloy Roman barbarous radiate copying uncertain ruler c.275-285 AD. Reverse:	ROMAN to ROMAN

Parish	Name	Description (where available)	Period
		Illegible legend, Uncertain female figure standing left?	
Friston	COIN	A worn, plated contemporary copy of a Roman denarius of Domitian, c.84-87 AD. Reverse: [POT III-IMP [V] COS[]], Minerva standing left on prow brandishing javelin and holding shield. This coin appears to be a mule with an obverse as RIC II no. 85 (c.86-87).	ROMAN to ROMAN
Friston	KEY (LOCKING)	An incomplete cast copper-alloy key of probable Roman date. Only the bit survives, the remainder of the object now missing due to old breaks. It has an oval sectioned shaft with off-centre circular aperture that terminates in old breaks at the bit.	ROMAN to ROMAN
Friston	unidentified object	A copper-alloy unidentified object, date unknown. This object has a globular rounded head and a circular sectioned shaft which flares towards its tip before tapering abruptly to a point.	UNKNOWN to
Knodishall	SPEAR	Small copper-alloy pegged spearhead, complete except for very end of tip which has been recently blunted/rounded. Some bare metal is visible here and it seems that the blunting may have happened.	BRONZE AGE to
Knodishall	BRIDLE BIT	An incomplete cast copper-alloy bridle bit link of late early-medieval date. It has a rectangular shaft that is D-shaped in section with flat back and rounded front face. At one end of the shaft is a projecting dome-shaped boss.	EARLY MEDIEVAL to EARLY MEDIEVAL
Knodishall	COIN	An incomplete silver Medieval penny of Edward I, Class 10cf, c.1302-1310 AD. As Withers and Withers, 2006: pp. 36-37. Almost one quarter of the coin is missing due to old breaks.	MEDIEVAL to MEDIEVAL
Knodishall	COIN	A silver Medieval groat of Edward IV (AD 1461-1470 // 1471-1483), second reign, type F, dating to AD 1471-1483. Mint of London. North 1631.	MEDIEVAL To MEDIEVAL

Parish	Name	Description (where available)	Period
Knodishall	BUCKLE	A copper-alloy buckle with integral chape of Medieval date. It has a D-shaped frame that is D-shaped in section with transverse groove at the bar end and central circular pin hole retaining a copper-alloy pin. This is D-shaped in section.	MEDIEVAL to MEDIEVAL
Knodishall	STRAP END	A worn copper-alloy strap end of Medieval date. It comprises two flat plates that are triangular in form, undecorated and taper towards their base. Both plates have small semi-circular terminal knobs of equal size.	MEDIEVAL to MEDIEVAL
Knodishall	COIN	A silver Medieval penny of Edward I, Class 4d, c.1282-1289 AD. As Withers and Withers, 2006: pp. 28-29.	MEDIEVAL to MEDIEVAL
Knodishall	COIN	A silver hammered penny struck for Edward II, dating c. 1310-1314. Class 11b, mint of Canterbury. North 1061.	MEDIEVAL to MEDIEVAL to MEDIEVAL
Knodishall	MOUNT	A copper-alloy fragment of a Medieval mount, dating to AD 1250-1450. It is sub-rectangular in plan with worn breaks in all the edges. The front face is decorated with shallow parallel ridges, which bear traces of gilding.	MEDIEVAL to MEDIEVAL to MEDIEVAL
Knodishall	MOUNT	Description: A complete gilded silver post-medieval mount or strap fitting. It is circular with a circular hole through its centre, its outer face moulded to form a six-petalled double rose. The reverse is flat and undecorated. There are traces of gilding.	POST-MEDIEVAL to POST-MEDIEVAL
Knodishall	SPOON	Description: A fragment of a gilded silver post-medieval 'seal top' spoon. Only the terminal of the handle survives. This culminates in a flat disc with bands of decoration behind it, which is reminiscent of a seal matrix, hence the common name for these.	POST-MEDIEVAL to POST-MEDIEVAL

Parish	Name	Description (where available)	Period
Knodishall	COIN	A worn silver half groat of Charles I, uncertain type, c.1625-1649 AD. The coin has a small square punched hole to one side of the flan.	POST-MEDIEVAL to POST-MEDIEVAL
Knodishall	COIN	A silver shilling of Charles I, probably Group F, c.1625-1649 AD. As North, 1975: no. 2231.	POST-MEDIEVAL to POST-MEDIEVAL
Knodishall	COIN WEIGHT	A copper-alloy Post-Medieval coin weight, dating to AD 1500-1600. It is almost square in plan and has bevelled edges. The front face has an unclear design depicting what looks like a rose surrounded by four symmetrical floral elements; it is bordered by	POST-MEDIEVAL to POST-MEDIEVAL to POST-MEDIEVAL
Knodishall	TOKEN	A copper-alloy Post-Medieval trade token, dating to 1600-1700. uncertain trader. Uncertain mint. Obverse: [...]VR[...] = a shield Reverse: [...]P[...]M[...] = unclear.	POST-MEDIEVAL to POST-MEDIEVAL to POST-MEDIEVAL
Knodishall	KNIFE	An incomplete copper-alloy object, probably a handle from a knife or similar implement of Roman date. It is missing large areas of the blade end due to old breaks. The terminal end has a large globular knop with groove at its base.	ROMAN to ROMAN
Knodishall	COIN	A worn copper-alloy Roman sestertius of Faustina I or II, c.138-175 AD. Reverse: [], An altar or throne? Mint: Rome?	ROMAN to ROMAN
Knodishall	VESSEL	An incomplete cast copper-alloy vessel mount or escutcheon of Roman date. It is missing the top corners, and perhaps the upper edge, due to old breaks, but otherwise appears complete. The surviving object is triangular in form with concave back face.	ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Q-radiate of Allectus, c.293-296 AD. Reverse: LAETITIA AVG, A galley right. Mint: C mint. As RIC 5.2 no. 124.	ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Roman nummus of Constantine I (AD 306-337), dating to AD 310 (Reece Period	ROMAN to ROMAN to ROMAN

		chalice-shaped flower. Minerva is wearing a draped robe with a possibly head of Gorgon placed on her chest.	
Knodishall	UNIDENTIFIED OBJECT	A copper-alloy fragment of a possibly Roman unidentified object, dating to AD 43-410. In plan, it has a shape of a C-shaped scroll with a sub-rectangular cross-section. It tapers towards one possibly broken end. The outer face has a central longitudinal.	ROMAN to ROMAN to ROMAN
Knodishall	UNIDENTIFIED OBJECT	A copper-alloy fragment of a possibly Roman unidentified object, dating to AD 43-410. It is a sheet of metal heavily broken on the edges. It consists of a sub-rectangular bar, which has a forked protrusion in the middle of one of the long sides.	ROMAN to ROMAN to ROMAN
Knodishall	HAIR PIN	A copper-alloy Roman pin, dating to AD 43-410. it has a spherical head and an oval cross-sectioned shaft. The shaft has an expansion part at about half way down to the sharp tip. The shaft is slightly bent sideways in different points. The surface is abraded.	ROMAN to ROMAN to ROMAN
Knodishall	BROOCH	An incomplete copper-alloy Roman brooch of the Headstud Type, dating to c. AD 75-250. The head has a sub-cylindrical shape and it houses the copper-alloy axis bar. On the back of the head there is a slot for the missing hinged pin.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Roman sestertius of Julia Domna (AD 193-217), dating to AD 196-211 (Reece Period 10). [CERES] reverse type depicting Ceres standing left, holding corn-ears and torch; altar on the left. Mint of Rome. As RIC IV, part 1, p. 208, no. 848.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	An incomplete copper-alloy Roman radiate possibly of Victorinus, dating to AD 269-271 (Reece Period 14). [SALVS AVG] reverse type	ROMAN to ROMAN to ROMAN

Parish	Name	Description (where available)	Period
		depicting Salus standing right holding snake in her arms. Uncertain mint.	
Knodishall	COIN	A copper-alloy Roman radiate of Victorinus, dating to AD 269-271 (Reece Period 14). Possibly [PROVIDENTIA AVG] reverse type depicting Providentia standing left holding cornucopia and baton. Possibly Mint II. Cf Normanby p. 195, nos. 1445A-1446.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Roman radiate of Carausius, dating to AD 286-293 (Reece Period 14). Reverse type unclear depicting a standing figure. Uncertain mint.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Roman radiate of Allectus, dating to AD 293-296 (Reece Period 14). VIRTUS AVG reverse type depicting a galley rowing left. C mint.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Roman radiate of Tetricus I dating to AD 271-274 (Reece Period 13). [VIRTUS A]VGG reverse type depicting soldier with vertical spear and shield. Possibly mint I. Cf Normanby p. 196, no. 1485.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	A copper-alloy contemporary copy of a Roman radiate (Barbarous radiate), copying a coin of an uncertain ruler, dating to AD 275-285 (Reece Period 14). Copying an unclear reverse type depicting a standing figure.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Roman radiate of Claudius II, dating to AD 268-270 (Reece Period 13). [MARS VLT]OR reverse type depicting Mars walking right holding trophy over shoulder and transverse spear. Uncertain mint.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Roman radiate of Carausius, dating to AD 286-293 (Reece Period 14). [PA]X [AVG] reverse type depicting Pax standing left holding flower or branch and vertical sceptre. Uncertain mint.	ROMAN to ROMAN to ROMAN

Parish	Name	Description (where available)	Period
Knodishall	COIN	An incomplete copper-alloy Roman nummus of an uncertain Emperor, possibly dating to AD 296-317 (Reece Period 15). Unclear reverse type. Uncertain mint.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Roman nummus of Severus II (AD 305-307) dating to AD 305-307 (Reece Period 15). GENIO POPV-LI ROMANI reverse type depicting Genius standing left, holding cornucopia and patera, unclear headgear, loins draped. Mint of Trier. As RIV VI p. 20	ROMAN to ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Roman nummus of Crispus (AD 317-326), dating to AD 321-324 (Reece Period 16). CAESARVM NOSTRORVM reverse type depicting wreath enclosing VOT/X. Possibly mint of London.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	An incomplete copper-alloy Roman nummus of Constantine II (AD 317-340), dating to AD 324-325 (Reece Period 16). [PROVIDEN-TIAE CAESS] reverse type depicting camp-gate with two turrets, no doors, star above. Mint of London. As RIC VII p.116, no. 296.	ROMAN to ROMAN to ROMAN
Knodishall	COIN	A copper-alloy Roman nummus of Constantius II (AD 323-361), dating to AD 326 (Reece Period 16). PROVIDEN-[TIAE CAESS] reverse type depicting camp-gate with two turrets, no doors, star above. Mint of Trier. As RIC VII p. 206, no. 480.	ROMAN to ROMAN to ROMAN
Saxmundham	bridle fitting	An incomplete flat copper-alloy cheekpiece in the shape of a Ringerike style animal head and neck. It is 36 mm in length, 34 mm in width (this is the greatest width, measured across the head) and 2.5 mm.	EARLY MEDIEVAL
Saxmundham	WEIGHT	A very worn and heavily restored late early-medieval barrel-shaped weight. It is biconical in form with flattened top and bottom surfaces. The weight has the remains of an iron core	EARLY MEDIEVAL to EARLY MEDIEVAL

Parish	Name	Description (where available)	Period
		surrounded by a largely incomplete and heavily repaired/restored copper.	
Saxmundham	COIN	An incomplete (heavily clipped) silver medieval Irish penny of Edward IV, dating to the period AD 1473-8. Light 'cross and pellets' coinage. Dublin or Drogheda mint. Seaby 1984, no.6365 or 6373	MEDIEVAL to MEDIEVAL
Saxmundham	SEAL MATRIX	A complete copper alloy medieval seal matrix. It is oval ('vessica') shaped and the reverse is undecorated with a small, circular suspension loop extending at a right angle to one end. The outer face is inscribed with '+IO SVI SEL A AMI LEL'.	MEDIEVAL to MEDIEVAL
		N/A	
Saxmundham	STRAP FITTING	A complete copper alloy post-medieval swivel fitting. The object consists of a central oval knob pieced with a circular hole, within which two separate components are attached. Each of these components consists of an outer multi-faceted knob pierced.	POST-MEDIEVAL to POST-MEDIEVAL
		N/A	
		N/A	
Saxmundham	KNIFE	A cast copper-alloy knife handle of Roman date. It is in the form of a human leg with transverse groove at the attachment end. The leg is oval sectioned, tapering at its base to a small oval foot. This has incised decoration.	ROMAN to ROMAN
Saxmundham	COIN	A silver Roman denarius of Septimius Severus, c.197 AD. Reverse: P[IO AVG, Emperor on horse prancing right, holding spear. As RIC 4.1 n. 106.	ROMAN to ROMAN
Saxmundham	UNIDENTIFIED OBJECT	A cast copper-alloy object, possibly a collar, ferrule or similar, of possible Roman date. It is cylindrical in form with a large central circular aperture. At one end (top?) the object expands to	ROMAN to ROMAN

Parish	Name	Description (where available)	Period
		swollen, cylindrical terminal. This has a flattened collar.	
Sternfield	SOCKETED AXEHEAD	An incomplete cast copper-alloy socketed axehead of Late Bronze Age date. The blade and part of the very base of the socket survive the remainder now missing due to old breaks. It is triangular in profile, rectangular in form with a crescentic blade.	BRONZE AGE to BRONZE AGE
Sternfield	BROOCH	A copper-alloy incomplete backward-looking animal disc brooch. It is flat and circular in shape with a diameter of c30 mm. The front face is decorated by a ribbed raised boarder.	EARLY MEDIEVAL
Sternfield	HARNESS MOUNT	A complete enamelled and gilded copper alloy medieval heraldic harness mount. The mount is shield shaped (Ward Perkins Type I) with an integral rivet extending from the centre of the reverse. The outer face is decorated with a recessed two headed eagle.	MEDIEVAL to MEDIEVAL
Sternfield	DEBITAGE	A flint blade of probable Mesolithic to early Neolithic date. There are three long, thin, parallel scars on the dorsal face and cortex remaining on the left-hand side. It has been struck with a fairly soft hammer. There is evidence of platform preparation.	MESOLITHIC To NEOLITHIC
Sternfield	DEBITAGE	A small flint working flake of probable Neolithic to early Bronze Age date. An elongated sub-oval tertiary flake struck with a fairly hard hammer. There is no additional retouch, but there is a notch in the centre of the right side.	NEOLITHIC To BRONZE AGE
Sternfield	STRAP FITTING	An incomplete copper alloy post-medieval strap fitting comprising three separate components, one detached. The group includes a strap mount with a separate hoop attached and a bent strip of metal, which was apparently found within the loop at the base.	POST-MEDIEVAL to POST-MEDIEVAL
