Table of Plates

Plate 1.1 Suffolk Onshore Scheme landfall looking south towards Aldeburgh, in the area of former Second World War defences (ARG 050 ad ARG 051). Works in this area will use trenchless methods.	2
Plate 1.2 View of the former Aldeburgh Branch Line (ADB 226) visible on the horizon as and marked by the trees/hedgerow viewed from the area of Plot 205, which is also the location of The Mear (ADB 160).	2
Plate 1.3 Derelict cottage assumed to be linked to the former Smock Mill (ADB 017).	3
Plate 1.4 View of Gorse Hill (Plots 193.1 and 193.2) from the east. The proposed terrestrial landfall starter/reception pit is located in the foreground.	3
Plate 1.5 View east along Plot 162.1 showing existing tree and vegetation cover.	4
Plate 1.6 View east across Plot 152.9 from the area of an archaeological anomaly recorded as part of the geophysical survey AECOMS005.	4
Plate 1.7 View of the former Second World War anti-tank obstacles (ADB034).	5
Plate 1.8 View west across Plot 152.2 from the area of geophysical anomalies (AECOMS006).	5
Plate 1.9 Views south across the Order Limits in Plots 58.21 and 86.3 in the area of Hazlewood Aerodrome (FRS 017).	6
Plate 1.10 General views across the Order Limits in Plot 58.26.	6
Plate 1.11 General views across the Order Limits in Plot 58.6 from the northwest corner facing southeast.	7
Plate 1.12 General view across the Order Limits in Plot 58.27.	7
Plate 1.13 Example of a ditch, in the western end of Plot 58.27, recorded during the archaeological evaluation.	8
Plate 1.14 Views southeast across the Order Limits in Plot 28.7, with the existing Overhead Lines (OHL) visible.	8
Plate 1.15 Views east across Plot 28.12 along the Order Limits and the existing OHL in the area of the Roman enclosure (KND 066).	9
Plate 1.16 General views from the area of a possible enclosure (SNF 038) across Plot 91.22 looking northwest towards the proposed Saxmundham Converter Station.	9
Plate 1.17 View northeast from the western side of the proposed Saxmundham Converter Station. The Grade II* listed Buxlow Manor lies beyond the large woodland right of image.	10
Plate 1.18 View towards Wood Farm from the western limits of the proposed Saxmundham Converter Station site.	10
Plate 1.19 View across the proposed Saxmundham Converter Station site looking towards the modern agricultural buildings at Hill Farm and the existing OHL.	11
Plate 1.20 View east along the alignment of the proposed permanent access from the area adjacent to the River Fromus.	11
Plate 1.21 View north across the western end of the Suffolk Order Limits south of Saxmundham, with the location of the proposed River Fromus Crossing in the woodland right of image.	12
Plate 1.22 Area of the proposed River Fromus Crossing south of Saxmundham.	12
Plate 1.23 View towards the Grade II* Buxlow Manor (NHLE 1215749) from the road to the west.	13
Plate 1.24 View southwest towards the proposed Saxmundham Converter Station from the road adjacent to Buxlow Manor showing extensive screening from woodland in the distance.	13
Plate 1.25 View towards the Grade II* listed Church of St Mary (NHLE 1287864) in Friston from the south. The proposed Friston Substation would be located behind the woodland beyond the church.	14
Plate 1.26 View north towards the Grade II listed Woodside Farmhouse (NHLE 1215744) located on the north side of Friston.	14
Plate 1.27 View of the Grade II listed Woodside Farm (NHLE 1215744), as well as the Grade II* listed Church of St Mary, Friston, (NHLE 1287864) viewed from the Public Right of Way to the north of Friston near Plot 7.1.	15

Plate 1.28 View north along the existing track from the area near the Grade II listed Woodside Farmhouse (NHLE 1215744) towards the existing OHL demonstrating the existing screening.	15
Plate 1.29 View north towards the existing OHL from the area of the proposed Friston Substation. The Grade II listed Little Moor Farm (NHLE 1215743) is located in the woodland left of centre, while the non-designated elements of the Grade II listed High House Farm (NHLE 1216049) are located on the extreme left of the image.	16
Plate 1.30 View south from the proposed Friston Substation towards Friston with the tower of the Grade II* listed Church of St Mary (NHLE 1287864) visible on the horizon.	16
Plate 1.31 View north towards the proposed Friston Substation site as well as the existing OHL from the north of Friston/the possible site of Buxlow/Buxton (KND 009).	17
Plate 1.32 View north towards the Grade II listed Hill Farmhouse (NHLE 1231296) demonstrating the extensive existing screening.	17
Plate 1.33 View north towards the Grade II listed Hill Farmhouse (NHLE 1231296). The proposed Saxmundham Converter Station is right of centre.	18
Plate 1.34 The Grade II* Church of St John the Baptist, Saxmundham (NHLE 1268184).	18
Plate 1.35 View of the Grade II* Church of St John the Baptist, Saxmundham (NHLE 1268184) from Saxmundham/the B1119 to the north.	19
Plate 1.36 View towards the Grade II* Church of St John the Baptist, Saxmundham (NHLE 1268184), from the access track that links it to the Grade II listed Hurts Hall (NHLE 1268178) demonstrating 20th century development around the church.	19
Plate 1.37 View from the Grade II* Church of St John the Baptist, Saxmundham (NHLE 1268184) towards the Grade II listed Hurts Hall (NHLE 1268178).	20
Plate 1.38 The southwest and southeast elevations of the Grade II listed Hurts Hall (NHLE 1268178), viewed from the south, with the recently established formal gardens in the foreground.	20
Plate 1.39 Views south from the main southeast elevation of Hurts Hall (NHLE 1268178) across the croquet lawn and summer house (both recent additions). The proposed Permanent Access runs from east to west across Plot 468.1 which is located beyond the treeline.	21
Plate 1.40 View south across Plot 468.1 and the route of the proposed Permanent Access from the southern limits of the formal garden, and modern boundary, of Hurts Hall.	21
Plate 1.41 View southwest from the edge of Hurts Hall formal gardens. The proposed River Fromus Crossing would be located within the area of the taller trees in the distance.	22
Plate 1.42 View towards the Grade II listed Hurts Hall from the western end of the proposed Permanent Access (NHLE 1268178). The woodland on the right of the image marks the River Fromus, while views of Saxmundham, including the Grade II* listed Church of St John the Baptist are limited due to woodland screening.	22
Plate 1.43 View north towards the Grade II listed Hurts Hall (NHLE 1268178) from the proposed Permanent Access on the eastern side of the proposed River Fromus Crossing.	23
Plate 1.44 View of the fire-damaged Grade II listed Wood Farmhouse (NHLE 1231179), prior to demolition.	23
Plate 1.45 View of the remaining eastern section of the Grade II listed Wood Farmhouse (NHLE 1231179).	24
Plate 1.46 View southeast towards the proposed Saxmundham Converter Station site from the access track to Wood Farmhouse (NHLE 1231179). Barns associated with the farm complex are visible on the right side of the image.	24
Plate 1.47 View of the Grade II* Church of Mary Magdeline (NHLE 1278252), with the Grade II listed War Memorial in front of the church (NHLE 1458741).	25
Plate 1.48 Views towards the proposed Saxmundham Converter Station from the Grade II* Church of Mary Magdeline (NHLE 1278252) in Sternfield. The Grade II Sternfield House can be seen right of centre (NHLE 1231300). Views are blocked by vegetation as well as topography.	25

1. Site Photographs

Plate 1.1 Suffolk Onshore Scheme landfall looking south towards Aldeburgh, in the area of former Second World War defences (ARG 050 ad ARG 051). Works in this area will use trenchless methods.

Plate 1.2 View of the former Aldeburgh Branch Line (ADB 226) visible on the horizon as and marked by the trees/hedgerow viewed from the area of Plot 205, which is also the location of The Mear (ADB 160).

Plate 1.3 Derelict cottage assumed to be linked to the former Smock Mill (ADB 017).

Plate 1.4 View of Gorse Hill (Plots 193.1 and 193.2) from the east. The proposed terrestrial landfall starter/reception pit is located in the foreground.

Plate 1.5 View east along Plot 162.1 showing existing tree and vegetation cover.

Plate 1.6 View east across Plot 152.9 from the area of an archaeological anomaly recorded as part of the geophysical survey AECOMS005.

Plate 1.7 View of the former Second World War anti-tank obstacles (ADB034).

Plate 1.8 View west across Plot 152.2 from the area of geophysical anomalies (AECOMS006).

Plate 1.9 Views south across the Order Limits in Plots 58.21 and 86.3 in the area of Hazlewood Aerodrome (FRS 017).

Plate 1.10 General views across the Order Limits in Plot 58.26.

Plate 1.11 General views across the Order Limits in Plot 58.6 from the northwest corner facing southeast.

Plate 1.12 General view across the Order Limits in Plot 58.27.

Plate 1.13 Example of a ditch, in the western end of Plot 58.27, recorded during the archaeological evaluation.

Plate 1.14 Views southeast across the Order Limits in Plot 28.7, with the existing Overhead Lines (OHL) visible.

Plate 1.15 Views east across Plot 28.12 along the Order Limits and the existing OHL in the area of the Roman enclosure (KND 066).

Plate 1.16 General views from the area of a possible enclosure (SNF 038) across Plot 91.22 looking northwest towards the proposed Saxmundham Converter Station.

Plate 1.17 View northeast from the western side of the proposed Saxmundham Converter Station. The Grade II* listed Buxlow Manor lies beyond the large woodland right of image.

Plate 1.18 View towards Wood Farm from the western limits of the proposed Saxmundham Converter Station site.

Plate 1.19 View across the proposed Saxmundham Converter Station site looking towards the modern agricultural buildings at Hill Farm and the existing OHL.

Plate 1.20 View east along the alignment of the proposed permanent access from the area adjacent to the River Fromus.

Plate 1.21 View north across the western end of the Suffolk Order Limits south of Saxmundham, with the location of the proposed River Fromus Crossing in the woodland right of image.

Plate 1.22 Area of the proposed River Fromus Crossing south of Saxmundham.

Plate 1.23 View towards the Grade II* Buxlow Manor (NHLE 1215749) from the road to the west.

Plate 1.24 View southwest towards the proposed Saxmundham Converter Station from the road adjacent to Buxlow Manor showing extensive screening from woodland in the distance.

Plate 1.25 View towards the Grade II* listed Church of St Mary (NHLE 1287864) in Friston from the south. The proposed Friston Substation would be located behind the woodland beyond the church.

Plate 1.26 View north towards the Grade II listed Woodside Farmhouse (NHLE 1215744) located on the north side of Friston.

Plate 1.27 View of the Grade II listed Woodside Farm (NHLE 1215744), as well as the Grade II* listed Church of St Mary, Friston, (NHLE 1287864) viewed from the Public Right of Way to the north of Friston near Plot 7.1.

Plate 1.28 View north along the existing track from the area near the Grade II listed Woodside Farmhouse (NHLE 1215744) towards the existing OHL demonstrating the existing screening.

Plate 1.29 View north towards the existing OHL from the area of the proposed Friston Substation. The Grade II listed Little Moor Farm (NHLE 1215743) is located in the woodland left of centre, while the non-designated elements of the Grade II listed High House Farm (NHLE 1216049) are located on the extreme left of the image.

Plate 1.30 View south from the proposed Friston Substation towards Friston with the tower of the Grade II* listed Church of St Mary (NHLE 1287864) visible on the horizon.

Plate 1.31 View north towards the proposed Friston Substation site as well as the existing OHL from the north of Friston/the possible site of Buxlow/Buxton (KND 009).

Plate 1.32 View north towards the Grade II listed Hill Farmhouse (NHLE 1231296) demonstrating the extensive existing screening.

Plate 1.33 View north towards the Grade II listed Hill Farmhouse (NHLE 1231296). The proposed Saxmundham Converter Station is right of centre.

Plate 1.34 The Grade II* Church of St John the Baptist, Saxmundham (NHLE 1268184).

Plate 1.35 View of the Grade II* Church of St John the Baptist, Saxmundham (NHLE 1268184) from Saxmundham/the B1119 to the north.

Plate 1.36 View towards the Grade II* Church of St John the Baptist, Saxmundham (NHLE 1268184), from the access track that links it to the Grade II listed Hurts Hall (NHLE 1268178) demonstrating 20th century development around the church.

Plate 1.37 View from the Grade II* Church of St John the Baptist, Saxmundham (NHLE 1268184) towards the Grade II listed Hurts Hall (NHLE 1268178).

Plate 1.38 The southwest and southeast elevations of the Grade II listed Hurts Hall (NHLE 1268178), viewed from the south, with the recently established formal gardens in the foreground.

Plate 1.39 Views south from the main southeast elevation of Hurts Hall (NHLE 1268178) across the croquet lawn and summer house (both recent additions). The proposed Permanent Access runs from east to west across Plot 468.1 which is located beyond the treeline.

Plate 1.40 View south across Plot 468.1 and the route of the proposed Permanent Access from the southern limits of the formal garden, and modern boundary, of Hurts Hall.

Plate 1.41 View southwest from the edge of Hurts Hall formal gardens. The proposed River Fromus Crossing would be located within the area of the taller trees in the distance.

Plate 1.42 View towards the Grade II listed Hurts Hall from the western end of the proposed Permanent Access (NHLE 1268178). The woodland on the right of the image marks the River Fromus, while views of Saxmundham, including the Grade II* listed Church of St John the Baptist are limited due to woodland screening.

Plate 1.43 View north towards the Grade II listed Hurts Hall (NHLE 1268178) from the proposed Permanent Access on the eastern side of the proposed River Fromus Crossing.

Plate 1.44 View of the fire-damaged Grade II listed Wood Farmhouse (NHLE 1231179), prior to demolition.

Plate 1.45 View of the remaining eastern section of the Grade II listed Wood Farmhouse (NHLE 1231179).

Plate 1.46 View southeast towards the proposed Saxmundham Converter Station site from the access track to Wood Farmhouse (NHLE 1231179). Barns associated with the farm complex are visible on the right side of the image.

Plate 1.47 View of the Grade II* Church of Mary Magdeline (NHLE 1278252), with the Grade II listed War Memorial in front of the church (NHLE 1458741).

Plate 1.48 Views towards the proposed Saxmundham Converter Station from the Grade II* Church of Mary Magdeline (NHLE 1278252) in Sternfield. The Grade II Sternfield House can be seen right of centre (NHLE 1231300). Views are blocked by vegetation as well as topography.
