Mrs Sydney Jury

Interested party reference no: [REDACTED]

Email address: [REDACTED]

Dear Examiners,

My mum, Sydney Jury, has sent you via post (12/11/2025) her open floor hearing comments and these additions, but was worried in case the additional comments did not reach you by the deadline of the 18th November, so asked me if I would email them to you. She has an email address, but doesn't use it herself as she's not good with any technology. Below are her comments.

Kind regards,  
Caroline Pope

Planning Inspectorate, thank you for giving me the opportunity to protest about the National Grid at the Minster Marshes Sealink Open Floor Hearing. I will consider today's date as a good omen for us 11/11/2025.

We are still the few, but, I don't see why National Grid should dictate what they want they should have. They should have what we decide they can have, and that is not precious protected areas, Green fields and farmers land or populated areas.

We are a small country [REDACTED], stand up Britain we can be strong and Great again! Don't let National Grid push us around!

A local Labour M.P. recently said, small groups should not be allowed to protest! Well we may be small, but, this is still a free country! The only problem is will we be listened to? I hope good sense will win!
