

I oppose this development. I care about loss of a valuable local amenity. There is very little countryside in Thanet as it is and what little there is is being built on. The area is very small in any case. The development will result in loss of wildlife habitat. I am worried about damage to the saltmarsh. Jane

- Does the impact of construction noise and vibration on the flora and fauna that depend on this unique mosaic habitat concern you?
- Are you worried about how it will affect your life (and/or business) being right next to a building site for so long?
- Were you planning on selling your home and this will have a catastrophic impact on the value of your house?
