

Pegwell is registered site of SSI. Numerous wildlife live or use to stop and mate from all over the world. The lorries would be loud, cause traffic hold ups and our roads are not stable for the amount and weight of the vehicles over months of continuous heavy loads. The residue from the lorries and cargo would be washed and seep into the bay, natural water pools and sea. Poisoning animals and vegetation. House prices will depreciate due to noise, traffic, lose of beautiful nature and walks etc. We are losing all our green spaces to new builds. Vital to keep established SSI sites. Businesses such as cafes will not be accessible or a pleasure to use. There are alternative sites such as dungerness or Surrey that do not kill and destroy wildlife, flora and fauna and negatively impact on residents lives, homes, mental health and wellbeing. It is vital that pegwell bay maintains it's vital support to migrating and resident birds, wildlife and rare flower etc. Designated SSI sites are protected, destroying this area will kill the current animals and impact on national breeding as birds migrate here or rest on their way.
