

Do not destroy resident wildlife, flower etc, it is their habitat and vital to visiting and mating migrating birds. Affecting migrating birds affects their breeding on a world wide scale. The areas are protected SSI sites. Proven to be needed to be protected. The lorries fumes and residue will poison the air and drain into the sea and salt marsh. Killing wildlife who feed and drink there. The roads cannot take the constant strain of all the lorries. The noise will be unbearable all day for years. The roads will become gridlocked. Cafes and golf courses will lose custom and in such difficult times are likely to close. The beauty of the area for people to walk, bike and exercise will be lost. Dramatically negatively affect high numbers of residents and visitors mental and physical health. Do not destroy our area. Alternative places are available without destroying nature, wildlife and people's physical and mental wellbeing.
