

For years we've been told to respect the wildlife at the hoverport , keep dogs away. Avoid the breeding seals etc. How can you suddenly change the rules to suit now? Ive been a resident for 20 years. Walked my dogs there , taken my kids for educational walks. That hoverport was a place of solace when I lost my sister. It means so much to the residents. Not to mention the surrounding roads. Your traffic simply wont work here. The roads are wrecked! Sink holes...pot holes... youll inevitably need to drive through the centre of the village at some point and large lorries make it super dangerous. We need nature. Not more pollution. Leave our village alone
