

Sally Mccourt

I am deeply upset to read and learn of the destruction due to commence at the old Hoverport at Clifsend. This land has been protected from any development over the years with a view to protecting the wildlife that uses this land for many months of the year. It is beside the nature reserve at Pegwell and the planned works will simply destroy habitats and wildlife sites where they nest, feed and rest as they migrate across the country to and from different lands.
