[REDACTED]

Sirs

I write again as the above interested party to object to the loss of the old hoverport site at Pegwell for over four years as a holding site to your project.

Although owned and objected to the takeover by the local Thanet council it has been designated ahead against local opposition.

The loss of this amenity to our local family to regularly walk and observe the wildlife, the sea from its changing tides and particularly the SSSI site nearby

The amount of continuous lorries and noise from site at all hours

Congestion on an already heavily used nearby main road at Lord of Manor traffic lights will make getting in and out of Cliffsend and Minster a daily trial.

Audrey Jarvis
