Subject: Re: Ufford soecufic Issue hearings

Hello

Thanks for your help and I attended this morning in Ufford. I was concerned that our property does not appear on the land right tracker or in the schedule of negotiations. We live at [REDACTED] [REDACTED] and NG are already using our access to do preliminary works. Could you advise how I rectify this before Deadline 4. We have highlighted and returned every map Sealink have sent us so I can't understand why we have been missed off.

Thank You
