# 1. Details of Purpose for Which Compulsory Acquisition and Temporary Possession Powers are Sought

## 1.1 Land acquisition powers sought

1.1.1 The specific purposes for which each plot of land subject to compulsory acquisition or temporary possession powers is required are set out in the tables in this appendix. The first column of each table identifies the plot number (as shown on the Land Plan and used in the Book of Reference). Plots are grouped in each row to the extent that they are located on the same Land Plan Sheet. Furthermore, they are grouped into tables depending on the Class of Rights (purpose) in the fourth column.

**Table 1.14.4 Land acquisition powers sought**

Class	Colour of plot on Land Plans	Land Use power Sought	Principal relevant DCO Article
1	Brown	Compulsory Acquisition of land	Article 24
2	Green	Compulsory Acquisition of Rights (Overhead Line)	Article 25
3	Orange	Compulsory Acquisition of Rights (Underground Cable)	Article 25
4	Grey	Compulsory Acquisition of Rights (Construction Compound)	Article 25
5	Dark Blue	Compulsory Acquisition of Rights (Access)	Article 25
6	Purple	Compulsory Acquisition of Rights (Drainage)	Article 25
7	Light Blue	Compulsory Acquisition of Rights (Mitigation)	Article 25

Class	Colour of plot on Land Plans	Land Use power Sought	Principal relevant DCO Article
8	Pink	Temporary Use for Construction, Mitigation, maintenance, and dismantling redundant infrastructure	Article 27
9	Yellow	Temporary Use for Access (Construction)	Article 27
10	White / uncoloured	Land that is not subject to powers of acquisition or temporary Use	N/A

1.1.2 Powers of temporary possession are being sought over all of the land within the Order Limits as indicated on the Land Plans, and due to the proposed two stage approach to exercise of these land powers, the powers of temporary possession are being sought over an area greater than that proposed for permanent acquisition of land or rights which can be identified in the Land Plans. Table 1.16Tables 1.16, Table 1.171.17, Table 1.181.18 and Table 1.191.19 e A.3 sets out those plots of land where only temporary possession powers are being sought.

1.1.3 The tables in this appendix should be read in conjunction with and by reference to the following:

- Schedule 1 of the dDCO sets out in detail the nature and extent of works contained in each of the Work Numbers. Each Work Number has an element of temporary and permanent works contained within it. Furthermore some of the principal works include elements of work including but not limited to Access, Drainage and Mitigation which are also covered in their own Work Numbers where they are the principal works.
- The Work Numbers do not necessarily affect the whole land plot they are listed against, some are only applicable in part, however the Class of Rights remains correct due to the temporary nature of some of the works in the Work Numbers.
- The additional Work Numbers (Work's 13-17) have created some overlap and duplication in the Work Numbers attributable to each plot.

## Table 1.21.2 DCO Work Numbers

Schedule 1 of the dDCO sets out in detail the nature and extent of works contained in each of the Work Numbers. Each Work Number has an element of temporary and permanent works contained within it. Furthermore some of the principal works include elements of work including but not limited to Access, Drainage and Mitigation which are also covered in their own Work Numbers where they are the principal works.

~~The Work Numbers do not necessarily affect the whole land plot they are listed against, some are only applicable in part, however the Class of Rights remains correct due to the temporary nature of some of the works in the Work Numbers.~~

~~The additional Work Numbers (Work's 13-17) have created some overlap and duplication in the Work Numbers attributable to each plot.~~

<b>DCO Work Numbers</b>	<b>Description</b>
Work No.1A	Suffolk Overhead Electric Line works
Work No.1B	The new Substation at Grove Wood, Friston, Suffolk
Work No.2	Works to connect the Suffolk Substation to the Suffolk Converter Station
Work No.3A	Access road to the Suffolk Converter Station
Work No3B	The Suffolk Converter Station and associated equipment
Work No.4	Suffolk temporary work compounds
Work No. 5	An underground electric line connection in Suffolk
Work No. 6	Marine electric line works
Work No. 7	An underground electric line connection in Kent
Work No. 8	Kent temporary work compound
Work No. 9A	Access road to the Kent Converter Station and the Kent Substation
Work No. 9B	The Kent Converter Station and associated equipment
Work No. 10	Works to connect the Kent Converter Station to the Kent Substation
Work No. 11	The new Kent Substation
Work No. 12	Kent overhead line works
Work No.13	Proposed principal drainage outside linear and non-linear limits of deviation
Work No.14	Proposed accesses for construction, monitoring and maintenance outside linear and non-linear limits of deviation
Work No.15	Proposed environmental mitigation and landscaping
Work No.16	Proposed utility diversions
Work No.17	Proposed public rights of way diversions
Associated Development	As specified in Schedule 1 to the draft Order, including works necessary or expedient for the purposes of, or in connection with the construction or maintenance of the Proposed Project.

DCO Work Numbers	Description
	Associated Development applies to all plots.

The tables in this appendix should be read in conjunction with and by reference to the following:

- **Application Document 2.1 Land Plans**
- **Application Document 2.5 Works Plans**
- **Application Document 3.1 Draft Development Consent Order**
- **Application Document 3.2 DCO Explanatory Memorandum**
- **Application Document 4.3 Book of Reference**

**Table 1.31.3 Suffolk – Class 1. Compulsory Acquisition of land –(Class 1)**

Plot Number	Works Numbers	Class of Rights
1/3	Work No. 3A- Access Road to the Suffolk Converter Station Work No. 14– Proposed accesses for construction, monitoring and maintenance outside linear and non-linear limits of deviation	Class 1. Compulsory Acquisition of Land
1/11	Work No. 3A- Access Road to the Suffolk Converter Station Work No. 4- Suffolk Temporary Work Compound Work No. 13– Proposed principal drainage outside linear and non-linear limits of deviation Work No. 14– Proposed accesses for construction, monitoring and maintenance outside linear and non-linear limits of deviation Work No. 15– Proposed environmental mitigation and landscaping Work No. 16– Proposed utility diversions	Class 1. Compulsory Acquisition of Land
1/19	Work No. 3A- Access Road to the Suffolk Converter Station Work No. 15– Proposed environmental mitigation and landscaping	Class 1. Compulsory Acquisition of Land
1/20	Work No. 2- Works to Connect the Suffolk Substation to the Suffolk Converter Station Work No. 3A- Access Road to the Suffolk Converter Station Work No. 3B- the Suffolk Converter Station and Associated Equipment Work No. 4- Suffolk Temporary Work Compound Work No. 5- An Underground Electric Line Connection in Suffolk Work No. 13– Proposed principal drainage outside linear and non-linear limits of deviation Work No. 14– Proposed accesses for construction, monitoring and maintenance outside linear and non-linear limits of deviation Work No. 15– Proposed environmental mitigation and landscaping Work No. 17– Proposed public rights of way diversions	Class 1. Compulsory Acquisition of Land
