**Sea Link Project (the "Project")
Application Ref: EN020026
East Anglia Three Limited's Deadline 4 submission**

Dear Sir/Madam

1. Deadline 4 submission

1. We refer to the above Project and confirm we are instructed by East Anglia THREE Limited.
2. East Anglia THREE Limited ("**EA3L**") was granted development consent order ("**DCO**") on 7 August 2017 for the East Anglia THREE Offshore Wind Farm ("**EA3**"). EA3 submitted a written representation in respect of the Project at deadline 1, which was accepted by the examining authority [REP1-188].
3. As outlined in EA3L's written representation, EA3 is an offshore wind farm located approximately 69km from the Suffolk coast with an offshore export cable route making landfall near Bawdsey and an onshore cable route to transport energy to a convertor station in Bramford. The cable route for the Project will cross EA3's export cables.
4. EA3L confirms it is continuing to engage with the Applicant in respect of the interactions between the two developments. EA3L maintains its position as outlined in its written representation, that, in the absence of an agreement between the parties, protective provisions are required for the benefit of EA3 within any DCO granted in respect of the Project. EA3L is preparing a set of draft protective provisions which are required to protect its interests and these will be submitted into the examination soon.

Yours sincerely

For and on behalf of Shepherd and Wedderburn LLP
