Subject: Additional submission for Deadline 4 reference [REDACTED]

Dear Ms Holmes and ExA panel members,

We would be grateful if you would accept this additional submission in support of our recent representation reference [REDACTED].

Today, 13 February 2026, the Government has issued a new flood alert for the area of the Minster Converter and Substation and we thought it would be important for you to see this. The flood water may be north of the railway line and, as we described in ISH2, the flooding can be anyway up to the north Thanet coast as well. The unsuitability of the site surely cannot be ignored any longer.

Please urgently review <https://check-for-flooding.service.gov.uk/target-area/064FAG99Eastkent> and the photos attached.

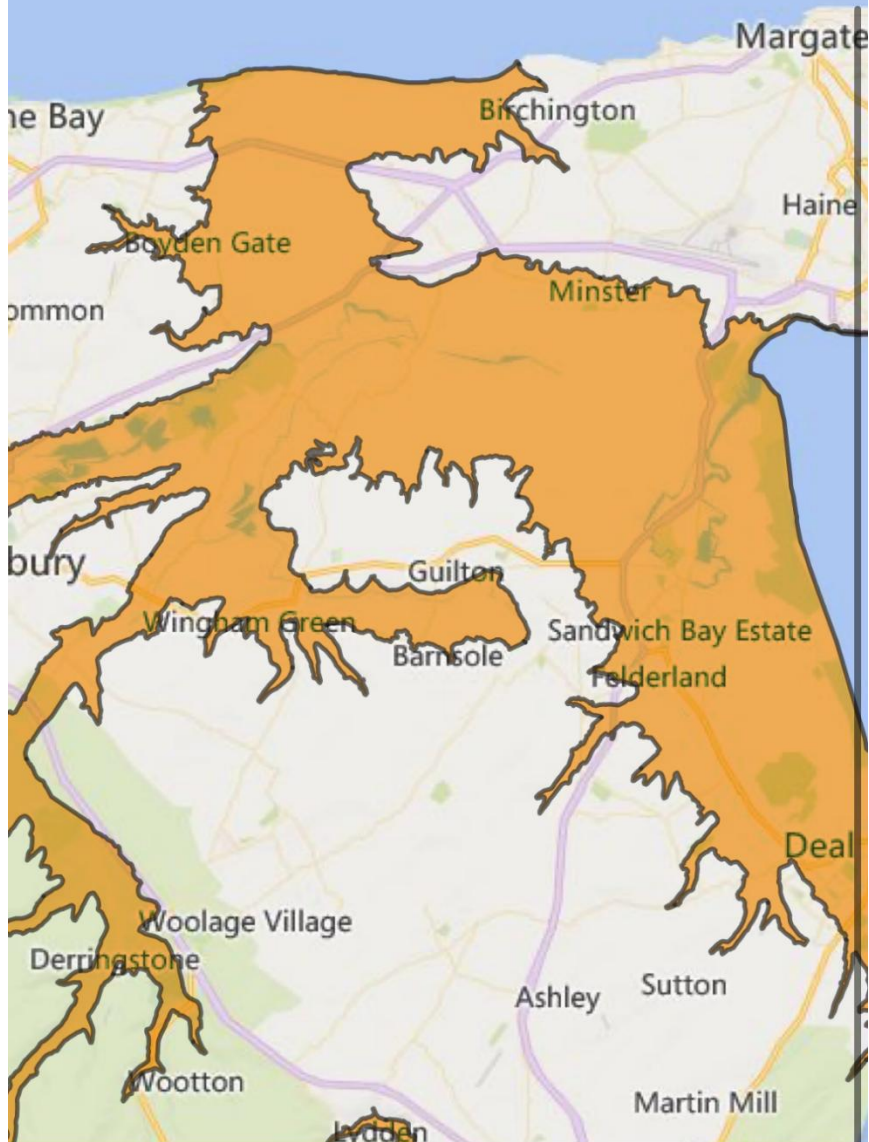

Kind regards

Karen McKenzie on behalf of SMM
