

I would like to speak at the Change Request 1, Open Floor hearing virtually. In light of the required works to Benhall Railway Bridge and the disruption this will cause to communities in Saxmundham, Benhall and Sternfield. I reiterate that the Saxmundham Converter site is inaccessible and therefore should not be located there. However- in terms of an alternative access route to the site, I fully support Suffolk County Councils proposed alternative route which was presented at CAH1 post hearing submission.
