PLANNING INSPECTORATE

Dear Sir,

I am writing to protest at the National Grids plan to buy the Ramsgate Hoverport site. The Thanet Council did not want them to use the old Hoverport site again after all the pollution that was caused the last time they used it, but of course they now want to buy it! WHY? They have not been given permission to build the Converter Station yet.

Or Have they??

They have already bought land around the Sewer works near ~~Minster~~ which would soon have been needed

2

with the amount of houses being built in Thanet. WHY?? They have not been <sup>given</sup> permission yet for their Converter Station !!

They seem to be sure it is a done deal to be buying up Thanet.

I do want to protest like many others but have no Internet so I guess my letter will arrive too late to be counted.

Don't let them buy the Hoverport! it could be an asset again to our Tourist trade as the Minster Marshes is now but if National Grid get their way all will be destroyed.

Thanking you  
Mrs. Sydney Jury
