Dear Planning Inspectorate

We have already made known our deep concerns known about the NGV/ Sealink / Lion Link applications.

Like almost everyone here we fear that your Examination is a box ticking exercise and that the best we can hope for is for mitigation in various ways

This will involve local councils having a duty of oversight to ensure such requirements are carried out.

On this context we are mortified to hear of the the Applicant's "AS 167" proposal, a sneaky attempt to replace such bodies with a yet to be formed quango "DESNZ" with no local representation or accountability.

This would be an affront to democracy and if you have a shred of professionalism you really cannot allow this to happen.

Yours sincerely
Jamie & Caroline Norman
