

The successful event at the Viking Ship shows how hundreds of local people will fight this development and it shows their passion and determination to not allow this to go ahead.

National Grid have already shown no respect for wildlife by tramping across the bay the other week and disturbing thousands of feeding birds. This shows no concern for the wildlife and the birds and just to continue to obliterate a very important landscape for animals and birds.

Minster Marshes, the hoverport and Pegwell Bay are the green lung for Thanet and once they have gone they are gone forever. This cannot be tolerated.

Our energy infrastructure must not prioritise shareholder profits over and above the needs of the environment and the community . There have not been enough consultations and the local community have not been taken any notice of.
