**EXPLANATORY NOTE IN RELATION TO DEVELOPMENT CONSENT OBLIGATIONS**

## **1 INTRODUCTION**

- 1.1 National Grid Electricity Transmission PLC (NGET) has sealed (on 29 April 2026) and proposes to legally complete the following unilateral undertakings. The Applicant is submitting the sealed versions for Deadline 7 and the dated and hence completed

versions will follow before the end of the Examination. These undertakings contain binding obligations, which will bind the Applicant further to Section 174 of the Planning Act 2008 and Section 106 of the Town and Country Planning Act 1990 (and noting NPS EN1 (2024) paragraph 4.1.18 which addresses development consent obligations, including setting out the salient tests which apply):

- 1.1.1 Unilateral undertaking given to Suffolk County Council in relation to the duty to further the purposes of the National Landscape (the "**National Landscape UU**");
- 1.1.2 Unilateral undertaking given to East Suffolk Council in relation to the payment of a contingency fund for monitoring macro-invertebrates around the proposed Fromus Bridge Crossing and/or enhancement of Water Framework Directive invertebrate habitat upstream of the proposed Fromus Crossing in the event that monitoring results exceed the criteria for when the payment of the contribution should be made (the "**Fromus Contingency Fund UU**"); and
- 1.1.3 Unilateral undertaking given to East Suffolk Council, Thanet District Council and Dover District Council in relation to the delivery of a final biodiversity net gain assessment and a biodiversity offsetting scheme which will achieve an overall percentage of 10% biodiversity net gain compared with the pre-development biodiversity value (the "**BNG UU**").
- 1.2 Together the unilateral undertakings are referred to as the Development Consent Obligations.
- 1.3 This note outlines the mechanism for securing the development consent obligations at section 2 and provides a brief summary of the terms of the obligations at section 3.

## 2 **LEGAL MECHANISM**

- 2.1 The Development Consent Obligations are entered into pursuant to section 106 of the Town and Country Planning Act 1990 and are enforceable by each of the relevant planning authorities as identified in the each document.
- 2.2 NGET does not currently own any land within the order limits and as such, an approach that has been accepted previously by the Secretary of State has been applied to the legal mechanism for securing the Development Consent Obligations. The Applicant notes, for example, that this approach was accepted on the Thames Water Utilities Limited (Thames Tideway Tunnel) Order 2014.
- 2.3 The draft Development Consent Order provides that NGET has an interest in the Land (as identified in each of the Development Consent obligations) sufficient to meet the requirements of Section 106(1) and section 106(3) of the TCPA 1990 which shall include National Grid's status as undertaker for the purposes of the Order. This is in accordance with the provisions of paragraph 6 of

## Sea Link Explanatory Note relating to Development Consent Obligations

---

Schedule 17 of the Order whereby the undertaker is deemed to be a person interested in the Order Land for the purposes of section 106(1) of the TCPA 1990.

- 2.4 NGET is seeking to acquire the Land by voluntary agreement but in the event that it is unable to acquire the Land by agreement, it will exercise the compulsory acquisition powers set out in Article 24 of the Order in relation to the Land. Once NGET has acquired the freehold interest in the Land it will enter into a confirmatory deed (referred to as a Deed of Adherence in the Development Consent Obligations) in order to bind the Land in accordance with the terms of completed Development Consent Obligations. This mechanism of a confirmatory deed is not unusual and can be deployed in respect of S.106 obligations under the 1990 Act regime, to bind land not yet owned.

### 3 **SUMMARY OF DEVELOPMENT CONSENT OBLIGATIONS**

- 3.1 The National Landscape UU requires NGET, prior to commencement of the Project in any part of the National Landscape, to pay the following sums to Suffolk County Council who will make such funds available to the Suffolk & Essex Coast & Heaths National Landscape Partnership (SECHNLP):
- 3.1.1 the sum of £55,000 to be expended by SECHNLP for the purposes of (1) funding measures which are identified in the Sustainable Development Fund and which are geographically located within the vicinity of that part of the National Landscape within which the Project is being constructed; (2) funding delivering and maintaining projects which are identified in the Management Plan and which are geographically located within the vicinity of that part of the National Landscape within which the Project is being constructed and/or (3) contributing towards the SECHNLP's costs in delivering the purposes references at (1) and (2) above; and
- 3.1.2 the sum of £20,000 to be expended by SECHNLP for the purposes of funding officer resource for delivering projects using the contribution referred to above.
- 3.2 NGET has negotiated the terms of the National Landscape UU with Suffolk County Council, with NGET accepting a number of the County Council's suggested amendments to the draft.
- 3.3 The Fromus Contingency Fund UU requires NGET, in the event that the monitoring results carried out pursuant to the requirements of the Fromus Macro Invertebrate Monitoring and Contingency Plan (as required to be submitted pursuant to requirement 3(e) of the draft development consent order) exceed the criteria for when the payment of the Fromus Contingency Contribution should be made (as set out in the plan itself), to pay the Fromus Contingency Contribution (a maximum of £100,000) (or part thereof as is reasonably evidenced by the Council in consultation with the Environment Agency to represent the mitigation required pursuant to the Fromus Macro Invertebrate Monitoring and Contingency Plan to encourage the passage of macro-invertebrates around the

Fromus Bridge Crossing and/or enhancement of Water Framework Directive invertebrate habitat upstream of the Fromus Crossing) to the Council (or at the direction of the Council to the Environment Agency).

- 3.4 NGET shared the draft of the Fromus Contingency Fund UU with East Suffolk Council and the Environment Agency but has not received any substantive comments on the draft from either party.
- 3.5 The BNG UU requires NGET to comply with the following obligations:
  - 3.5.1 Within two months of the date of completion of the detailed design of the Authorised Development prior to Commencement to submit to Natural England and the Councils the Biodiversity Net Gain Assessment.
  - 3.5.2 Within six months of the date on which the Construction Period ends for the Authorised Development NGET will submit a Final Biodiversity Net Gain Assessment to the Councils.
  - 3.5.3 If the Final Biodiversity Net Gain Assessment demonstrates that less than 10% biodiversity net gain has been achieved overall across the Order Land following construction of the Authorised Development, NGET will include a Biodiversity Offsetting Scheme within the Final Biodiversity Net Gain Assessment submitted to the Councils;
  - 3.5.4 The Biodiversity Offsetting Scheme will be implemented by NGET (a) within the Order Land and/or (b) on land within NGET's control and/or (c) by acquiring biodiversity units from third party landowners who have entered into legal agreements with the relevant local planning authority or responsible body (as appropriate) to secure their land as biodiversity net gain for a minimum period of 30 years.
  - 3.5.5 All elements of the Biodiversity Offsetting Scheme delivered within the Order Land will be subject to a Landscape and Ecological Management Plan ("LEMP"), which will be submitted to the Councils.
  - 3.5.6 NGET will use reasonable endeavours to complete the Biodiversity Offsetting Scheme prior to the Electrification of the Authorised Development.
  - 3.5.7 NGET will submit BNG Habitat Monitoring Reports in relation to all elements of the Biodiversity Offsetting Scheme delivered within the Order Land to the relevant BNG Monitoring Body, in accordance with the requirements of the LEMP.
  - 3.5.8 NGET will pay monitoring fee to the relevant BNG Monitoring Body as set out in the document.

## Sea Link Explanatory Note relating to Development Consent Obligations

---

- 3.6 NGET shared the draft heads of terms for the BNG UU with the three local planning authorities and has incorporated a number of changes as a result of the comments received, including the addition of monitoring fees, as set out above. No substantive comments on the draft BNG UU have been received from the local authorities.
