# 1. About this document

## 1.1 Introduction

- 1.1.1 This document serves as a comprehensive record of all documents submitted by National Grid Electricity Transmission plc (National Grid) for the Sea Link Project throughout both the application and examination phases. It tracks every update and revision to the application documents, as well as any new submissions made by the applicant during the examination process.
- 1.1.2 As a living document, it will be continually updated to reflect any changes or additions—whether these are revisions to existing documents or entirely new submissions to the Planning Inspectorate.

## 1.2 Master Document List

- 1.2.1 The table in this document supersedes the Document Tracker shown in Appendix A of **Application Document 1.3 (F) Navigation Document [PDA-003]**.
- 1.2.2 The master document list commences in Section 2 and provides a full list of all the documents submitted to date, indicating either the latest revision (if applicable) or when a new document was submitted.
- 1.2.3 For ease of reference the documents are grouped by volumes. All application documents are revision number (A) at submission and will be updated accordingly if revisions are required during the examination.
- 1.2.4 An explanation of the document numbering is provided section 1.4 of **Application Document 1.3 (F) Navigation Document [PDA-003]**.

## 2. Application and Examination Document Tracker

Documents coloured light green are the latest version.

Documents greyed out with strikethrough text have been superseded.
