To: The Right Honourable Miatta Fahnbulleh MP, Secretary of State for Energy Security and Net Zero.
C/o: Energy Infrastructure Planning Delivery Team, DESNZ
Via Email.

Dear Secretary of State,

I am [redacted] and have lived in Suffolk as a resident of Walberswick all my life.
You will have received many emails prevailing upon you to review both Sea Link and as a result Lion Link.
I have read widely of these and agree wholeheartedly with their content.
I am not going to repeat the arguments contained within these emails but implore you to use your position to look afresh
at the financials which I now believe are becoming a key issue in these straightened times and should now play a very large role in determining
your decisions.
Could I also add that should Lion Link be approved, we face the possibility of a further massive impact (Currently Sizewell and an enormous local solar farm) on both our village, our economy and our ecology (with one tiny road
which serves both incoming and outgoing traffic.)
Do please come and see this for yourself.
I believe you will very quickly come to understand our concerns and also question the standard of decision-making to date.
I mean this with all my heart.

Hugh Smiley
