Subject: FURTHER OBJECTIONS TO THE SEALINK SCHEME
Date: 18 September 2026 23:02:23

DEAR SIRS

SEALINK PROGRESS - THIS MUST NOT BE APPROVED

I am writing to you to urgently request that further consideration be given that the SEALINK scheme not be approved and allowed to blight our beautiful landscape here on the Suffolk coast.

The costs are out of control -and the scheme has not been properly thought through!

There are technical issues that have not been again thought through and despite being challenged have not been solved.

Am I being a NIMBY - I do not believe I am as there are better and more cost efficient ways of delivering energy schemes to this country.

The applicants are trying to drive this scheme through without proper consideration of alternatives that will not destroy our beautiful area that needs protection .....and also will be wasting money that drives up energy costs.

Tourism will be destroyed and take years to recover !

The Cumulative Impact has not been properly taken in to account !

PLEASE DO NOT ALLOW THIS SCHEME TO BE APPROVED

Regards

Richard Bodek , [redacted]
