Dear Examination Authority,

Application by National Grid Electricity Transmission (NGET) for an order granting development consent for the Sea Link Project

Examining Authority's All Interested Parties Consultation 28 August 2026

Thank you for the opportunity to comment on the responses submitted to the Secretary of State's information request dated 28 August 2026 as part of the All Interested Parties Consultation.

The Maritime and Coastguard Agency (MCA) has reviewed the responses and associated documentation relevant to its remit, including matters relating to shipping, navigational safety and maritime emergency response. This review has also considered the proposed amendments to the Development Consent Order (DCO) and Deemed Marine Licence (DML).

Having considered the information provided, it is the MCA's view that the responses received, and the consequential amendments made to the application documents, do not conflict with or adversely affect the requirements previously sought by the MCA and agreed with the Applicant.

Accordingly, the MCA has no further comments to make at this stage.

Yours faithfully,

Marine Licensing and Offshore Consenting Manager
