Dear XXX,

**Statutory Consultation for the proposed project called Norwich to Tilbury: 12:00 noon on Wednesday 10 April 2024 until 11:59pm on Tuesday 18 June 2024**

**Section 42 Planning Act 2008 (as amended): Duty to consult on a proposed application**

**The Infrastructure Planning (Applications and Prescribed Forms and Procedure) Regulations 2009 (as amended) (the "APFP Regulations")**

**Notification under Regulation 13 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (as amended) (the "EIA Regulations")**

National Grid Electricity Transmission plc ("National Grid") writes in relation to the launch of a statutory consultation in accordance with sections 42, 44, 47 and 48 of the Planning Act 2008 (the "Act") for the proposed project called Norwich to Tilbury ("the Project"). The consultation starts at **12:00 noon on Wednesday 10 April 2024 and runs until 11:59pm on Tuesday 18 June 2024.**

The Project is a proposal by National Grid to upgrade the electricity transmission system in East Anglia between Norwich and Tilbury. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 184 kilometres ("km") in overall length from Norwich Main Substation and Tilbury Substation via Bramford Substation, comprising:

- approximately 159 km of new overhead line supported on approximately 510 steel lattice pylons (approximately 50 metres ("m") in height) some of which are gantries (typically up to 15 m in height) within proposed Cable Sealing End ("CSE") compounds, or existing or proposed substations
- approximately 25 km of 400 kV underground cabling some of which is located through the Dedham Vale National Landscape (formerly known as Dedham Vale AONB)
- six new CSE compounds, each with a permanent access, to connect the overhead lines to the underground cables
- a new 400 kV East Anglia Connection Node ("EACN") substation, with a new permanent access, on the Tendring Peninsula. This is proposed to be an Air Insulated Switchgear ("AIS") substation
- substation extension works at the existing Norwich Main, and Bramford substations and works within the existing Tilbury Substation to connect and support operation of the new transmission connection
- temporary works associated with construction of the Project.

An alternative design at the Waveney Valley (referred to as the Waveney Valley Alternative) is also being considered and is the subject of consultation and ongoing assessment. This design alternative, if taken forward, would result in changes to those elements of the Project set out below. This would instead comprise:

- installation of approximately 157 km of new 400 kV overhead line
- installation of approximately 27 km of 400 kV underground cabling (some of which is located through the Dedham Vale National Landscape)
- eight new CSE compounds (each with a permanent access) to connect the overhead lines to the underground cables

All other works not listed above would be consistent with either alternative.

In other words, the Waveney Valley Alternative, if taken forward and based on the 2024 preferred draft alignment would comprise approximately 2 km less new 400 kV overhead line and approximately an additional 2 km of 400kV underground cabling and two additional new CSE compounds, each with a permanent access, to connect the overhead lines to the underground cables.

Third party utilities diversions and / or modifications would also be required to facilitate the construction of the Project. There would also be land required for mitigation, compensation and enhancement of the environment including Biodiversity Net Gain.

As well as the permanent infrastructure, land would also be required temporarily for construction activities including, for example, working areas for construction equipment and machinery, site offices, welfare, storage and temporary construction access.

Norwich to Tilbury will play a vital role in delivering electricity efficiently, reliably, and safely and will support the UK's move to reduce carbon emissions and we are committed to working with local communities as we develop our plans.

National Grid expects the Project to be classified as a Nationally Significant Infrastructure Project ("NSIP") and require consent from the Secretary of State for Energy Security & Net Zero via a Development Consent Order ("DCO"). The development consent being sought will include a number of other provisions, including those which authorise the compulsory acquisition of land and rights over land, if necessary, to construct and maintain the Project.

**Statutory Consultation**

The Project is an Environmental Impact Assessment ("EIA") development, as defined by the EIA Regulations). As part of the consultation, we are seeking views on the potential environmental effects of the proposals and if consultees have suggestions for reducing these effects (for example, through mitigation measures). This information is detailed in the Preliminary Environmental Information Report ("PEIR"). An Environmental Statement will be prepared subsequently in accordance with the EIA Regulations and will accompany the application for development consent.

The Project is currently in the pre-application stage of the DCO application process. As such, the Project is consulting on its proposals between **12:00 noon on Wednesday 10 April and 11.59pm on Tuesday 18 June 2024**, including with those consultees prescribed under Section 42 of the Act.

**Consultation Documents**

We have identified you as a consultee under Section 42(1)(d) of the Act, as a person who has an interest in land that may be affected by our proposals, or as a person it would be appropriate to consult with. As such, you will find enclosed with this letter:

- a copy of the Community Newsletter 2024
- a Feedback questionnaire; and
- a freepost envelope.

The Project is an "EIA development" for the purposes of the EIA Regulations. As required by Regulation 13 of the EIA Regulations, we also enclose a copy of the newspaper notice which is being published in accordance with Section 48 of the Act.

National Grid (as required by the Act) has prepared a Statement of Community Consultation ("SoCC") which sets out how National Grid will undertake the statutory consultation for the proposed application with those people living and working in the vicinity of the Project. The SoCC is available to view on the Project website: www.nationalgrid.com/n-t and at the inspection points listed further down in this letter.

A copy of the full suite of consultation documents is available to view on the Project website from **12:00 noon on Wednesday 10 April 2024 until 11:59pm on Tuesday 18 June 2024.**

These include:

- Project Background Document
- Feedback questionnaire
- Copy of the newspaper notice published under Section 48 of the Act (as the Project is 'EIA Development' for the purposes of the EIA Regulations and hence as required by Regulation 4 of the APFP Regulations)
- Preliminary Environmental Information Report ("PEIR") and non-technical summary ("NTS") of the PEIR
- Project map book/Project area maps showing the extent of the Project
- Statement of Community Consultation ("SoCC").

Copies of consultation materials and documents can be provided on request by contacting us either by email at contact@n-t.nationalgrid.com or by telephone on 0800 915 2497.

Dear Sir or Madam

**Statutory Consultation for Norwich to Tilbury: Consultation extended until 11:59pm on Friday 26 July 2024**

**Statutory Consultation for Norwich to Tilbury: 12:00 noon on Wednesday 10 April 2024 until 11:59pm on Friday 26 July 2024**

**Section 42 Planning Act 2008 (as amended): Duty to consult on a proposed application.**

**The Infrastructure Planning (Applications and Prescribed Forms and Procedure) Regulations 2009 (as amended) (the "APFP Regulations")**

**Notification under Regulation 13 of the Infrastructure Planning (Environmental Impact Assessment) Regulations 2017 (as amended) (the "EIA Regulations")**

National Grid Electricity Transmission plc ("National Grid") writes in relation to the extension of its statutory consultation in accordance with sections 42, 44, 47 and 48 of the Planning Act 2008 (the "Act") for the project called Norwich to Tilbury ("the Project"). The consultation started at **12:00 noon on Wednesday 10 April 2024 and will now run until 11:59pm on Friday 26 July 2024.** National Grid is doing this to give the public, their representatives, landowners and stakeholders additional time and opportunity to have their say and provide feedback on our proposals after the forthcoming General Election.

Any feedback already submitted during this consultation remains valid, but if you wish to submit any further feedback, you can do so.

The Project is a proposal by National Grid to upgrade the electricity transmission system in East Anglia between Norwich and Tilbury. The Project includes a new 400 kilovolt ("kV") electricity transmission connection of approximately 184 kilometres ("km") in overall length from Norwich Main Substation and Tilbury Substation via Bramford Substation, comprising:

- approximately 159 km of new overhead line supported on approximately 510 steel lattice pylons (approximately 50 metres ("m") in height) some of which are gantries (typically up to 15 m in height) within proposed Cable Sealing End ("CSE") compounds, or existing or proposed substations
- approximately 25 km of 400 kV underground cabling some of which is located through the Dedham Vale National Landscape (formerly known as Dedham Vale AONB)

- six new CSE compounds, each with a permanent access, to connect the overhead lines to the underground cables
- a new 400 kV East Anglia Connection Node (“EACN”) substation, with a new permanent access, on the Tendring Peninsula. This is proposed to be an Air Insulated Switchgear (“AIS”) substation
- substation extension works at the existing Norwich Main, and Bramford substations and works within the existing Tilbury Substation to connect and support operation of the new transmission connection
- temporary works associated with the construction of the Project.

An alternative design at the Waveney Valley (referred to as the Waveney Valley Alternative) is also being considered and is the subject of consultation and ongoing assessment. This design alternative, if taken forward, would result in changes to those elements of the Project set out below. This would instead comprise:

- installation of approximately 157 km of new 400 kV overhead line.
- installation of approximately 27 km of 400 kV underground cabling (some of which is located through the Dedham Vale National Landscape).
- eight new CSE compounds (each with a permanent access) to connect the overhead lines to the underground cables.

All other works not listed above would be consistent with either alternative.

In other words, the Waveney Valley Alternative, if taken forward and based on the 2024 preferred draft alignment would comprise approximately 2 km less new 400 kV overhead line and approximately an additional 2 km of 400kV underground cabling and two additional new CSE compounds, each with a permanent access, to connect the overhead lines to the underground cables.

Third party utilities diversions and / or modifications would also be required to facilitate the construction of the Project. There would also be land required for mitigation, compensation and enhancement of the environment including Biodiversity Net Gain.

As well as the permanent infrastructure, land would also be required temporarily for construction activities including, for example, working areas for construction equipment and machinery, site offices, welfare, storage and temporary construction access.

Norwich to Tilbury will play a vital role in delivering electricity efficiently, reliably, and safely and will support the UK’s move to reduce carbon emissions and we are committed to working with local communities as we develop our plans.

National Grid expects the Project to be classified as a Nationally Significant Infrastructure Project (“NSIP”) and to require consent from the Secretary of State for Energy Security & Net Zero via a Development Consent Order (“DCO”). The development consent being sought will include a number of other provisions, including those which authorise the compulsory acquisition of land and rights over land, if necessary, to construct and maintain the Project.

**Statutory consultation**

The Project is an Environmental Impact Assessment (“EIA”) development, as defined by the EIA Regulations. As part of the consultation, we are seeking views on the potential environmental effects of the proposals and if consultees have suggestions for reducing these effects (for example, through mitigation measures). This information is detailed in the Preliminary Environmental Information Report (“PEIR”). An Environmental Statement will be prepared subsequently in accordance with the EIA Regulations and will accompany the application for development consent.

The Project is currently in the pre-application stage of the DCO application process. As such, the Project is consulting on its proposals between **12:00 noon on Wednesday 10 April and 11:59pm on Friday 26 July 2024**.

**Consultation Documents**

We are contacting you because we have identified you as a consultee under section 42(1) of the Act, as a person who has an interest in land that may be affected by our proposals, or as a person it would be appropriate to consult with. Together with this letter we also enclose a copy of the updated newspaper notice which is being published in accordance with section 48 of the Act.

National Grid (as required by the Act) has prepared a Statement of Community Consultation ("SoCC") which sets out how National Grid will undertake the statutory consultation for the proposed application with those people living and working in the vicinity of the Project. The SoCC is available to view on the Project website: http://www.nationalgrid.com/n-t and at the inspection points listed further down in this email.

A copy of the full suite of consultation documents is available to view on the Project website from **12:00 noon on Wednesday 10 April 2024 until 11:59pm on Friday 26 July 2024.**

These include:

- Project Background Document
- Feedback questionnaire
- Copy of the newspaper notice published under Section 48 of the Act (as the Project is 'EIA Development' for the purposes of the EIA Regulations and as required by Regulation 4 of the APFP Regulations)
- Preliminary Environmental Information Report ("PEIR") and non-technical summary ("NTS") of the PEIR
- Project maps/Project area maps showing the extent of the Project
- Statement of Community Consultation ("SoCC").

Copies of consultation materials and documents can be provided on request by contacting us either by email at contact@n-t.nationalgrid.com or by telephone on 0800 915 2497.
