

Further to my written representation made at Registration I now attach my Risk Assessment spreadsheets produced to illustrate the impact that the proposal will have on Public Rights of Way (PRoW). Each spreadsheet, covering Essex, Suffolk and Norfolk, have an introduction outlining the method adopted so as to verify that a total of 449 PRoW will be either restricted, diverted or inaccessible during the overall construction period of at least 4 years. I have attached as both excel spreadsheets and pdf copy.

**NATIONAL GRID - NORWICH TO TILBURY
THE IMPACT ON PUBLIC RIGHTS OF WAY IN ESSEX - 2026**

National Grid Electricity Transmission have now applied to the Planning Inspectorate for an order granting development consent for the Norwich to Tilbury project. The proposals presented by National Grid have not fundamentally changed and continue to offer no alternatives other than 159 km (98 miles) of pylons and 25 km (15 miles) of underground cabling across Norfolk, Suffolk and Essex. The ongoing campaign by Pylons East Anglia is against this proposal, putting forward the options of an Integrated Offshore Grid or HVDC undergrounding.

As a member of the Ramblers Association, based in Chelmsford, Essex, I have now updated my original impact assessment on the Public Rights of Way (PRoW) across Essex. This was achieved by comparing the National Grid Norwich to Tilbury Interactive Map, and the 2025 Targeted Consultation Maps, with the Essex Highways and Thurrock Information Maps.

The spreadsheet below lists the PRoW (Footpaths, Bridleways and Byways) that would be impacted by this proposal, from North to South, including all PRoW that are within 50m and/or cross the proposed infrastructure, those affected by the significant extent of the Draft Order Limits and the Temporary and Permanent Works.

The entries are split under each District/Parish and include where long distance walks or trails are affected and an additional column confirming the percentage of Parish PRoW affected.

With a construction period of at least four years (beginning in 2027 - Norwich to Tilbury) we can see that a significant swath of Essex Countryside will be either restricted or inaccessible for those wishing to use these
208 Public Rights of Way, up from 195 in 2024 and 116 in 2023.

**NATIONAL GRID - NORWICH TO TILBURY
THE IMPACT ON PUBLIC RIGHTS OF WAY IN NORFOLK - 2026**

National Grid Electricity Transmission have now applied to the Planning Inspectorate for an order granting development consent for the Norwich to Tilbury project. The proposals presented by National Grid have not fundamentally changed and continue to offer no alternatives other than 159 km (98 miles) of pylons and 25 km (15 miles) of underground cabling across Norfolk, Suffolk and Essex. The ongoing campaign by Pylons East Anglia is against this proposal, putting forward the options of an Integrated Offshore Grid or HVDC undergrounding.

As a member of the Ramblers Association, based in Chelmsford, Essex, I have now updated my original impact assessment on the Public Rights of Way (PRoW) across Norfolk. This was achieved by comparing the National Grid Norwich to Tilbury Interactive Map, and the latest 2025 Targeted Consultation Maps, with the Norfolk Highways & Public Rights of Way Map.

The spreadsheet below lists the PRoW (Footpaths, Bridleways and Byways) that would be impacted by this latest proposal, from South to North, including all PRoW that are within 50m and/or cross the proposed infrastructure, those affected by the significant extent of the Draft Order Limits and the Temporary and Permanent Works. The entries are split under each District/Parish.

With a construction period of at least four years (beginning in 2027 - Norwich to Tilbury) we can see that a significant swath of Norfolk Countryside will be either restricted or inaccessible for those wishing to use

**NATIONAL GRID - NORWICH TO TILBURY
THE IMPACT ON PUBLIC RIGHTS OF WAY IN SUFFOLK - 2026**

National Grid Electricity Transmission have now applied to the Planning Inspectorate for an order granting development consent for the Norwich to Tilbury project. The proposals presented by National Grid have not fundamentally changed and continue to offer no alternatives other than 159 km (98 miles) of pylons and 25 km (15 miles) of underground cabling across Norfolk, Suffolk and Essex. The ongoing campaign by Pylons East Anglia is against this proposal, putting forward the options of an Integrated Offshore Grid or HVDC undergrounding.

As a member of the Ramblers Association, based in Chelmsford, Essex, I have now updated my original impact assessment on the Public Rights of Way (PRoW) across Suffolk. This was achieved by comparing the National Grid Norwich to Tilbury Interactive Map, and the 2025 Targeted Consultation Maps, with the individual Definitive Suffolk Parish Maps from Suffolk County Council.

The spreadsheet below lists the PRoW (Footpaths, Bridleways and Byways) that would be impacted by this proposal, from South to North, including all PRoW that are within 50m and/or cross the proposed infrastructure, those affected by the significant extent of the Draft Order Limits and the Temporary and Permanent Works.

The entries are split under each District/Parish and include where long distance walks or trails are affected and an additional column confirming the percentage of Parish PRoW affected.

With a construction period of at least four years (beginning in 2027 - Norwich to Tilbury) we can see that a significant swath of Suffolk Countryside will be either restricted or inaccessible for those wishing to use these
