

We have been unable to communicate our response to this latest part of the rerouting of the grid in an informed manner. The lack of detailed response from National Grid to various questions, and the length of time it is taking them to reply (still waiting for response to email sent 19.1.26) means we cannot form a reasoned riposte. Colchester Councils statement, AoC - 006, and that of Paul Armstrong, Langham Parish Council. AoC -029, are relevant to us, as we have had minimal interaction with National Grid. Our house will be surrounded on 3 whole sides, and the 4th (a lane) is impacted, probably by the works and traffic, on this new variant of the route. It would be nice to be able to express our views in a more knowledgeable manner.
