

Submission ID: S38C0478B

Around great waltham between pylons 132 and 144, to see the damage it will cause to grade 1 listed buildings, grade 2 listed buildings, register parkland. This is private land but access can be arranged easily

I believe that accompanied site visits should take place around Great Waltham from the following location to show the impact that the pylons will have on the historic environment.

Langleys (CM3 1AH) - Grade 1 listed house (used in a lot of National Grids DCO documents without them visiting)

Langleys Registered Parkland - Grade 2

Chatham Hall (CM3 1BZ) - Grade 2

Balls Farmhouse (CM3 1AD) - Grade 2

Farmland that the alternative route could take to show the mitigation to historic houses

All these locations require private access but in the same family ownership (Micklem) but would be very happy to organise a visit to these location
