[REDACTED]

Dear Sir or Madam

**RE: PARCEL NO 6799, NATIONAL GRID PYLON RG194 AND UKPN EXISTING PYLON NO P127
ALL AT [REDACTED]**

I had previously registered my interest in the DCO application with a Registration Identification No [REDACTED].
This evening I submitted my further comments with a submission reference of S1863E967.

I would like to request that the planning inspectorate visit our property in person to see our concerns and frustrations at the lack of information and questions unanswered by National Grid and Fisher German.

I am very inexperienced at these procedures and found 14 choices of "which item would you like to submit against for this deadline?" rather mind boggling and fear that I may have highlighted the wrong circle. I was looking for something marked "landowner" or even an "interested party", but sadly there was nothing. So through fear of missing the deadline, please find below the documents which I have hopefully attached through the correct format, in which case please forgive me for the duplication, but I would rather be safe than sorry!

I shall look forward to hearing from you, hopefully with a planned visit.

Many thanks and kind regards
Sarah Beevers
