To the inspectorates

I am messaging to say that National grid have not adequately replied to my points I raised on the affects of the project on our house and farm and business. Because of the need to sort out old electric poles before they start they wish to stop me from basically touching my own driveway and business for 7 years and I can not grow or expand my business. I've tried engaging with them and they agreed in a meeting they've made mistakes but said they need to rush their application. They don't listen to any suggestions to mitigate what they're doing to me and ruining me financially with my business, farm and home and they haven't contacted me like they have stated in the reply that they're going to contact landowners and listen. They have just quoted various things that cover a wide range of questions and say theyve replied which they haven't. Their reply is incompetent and insulting and they are not listening! They are ruining us and we have no voice or choice in the matter!

Thank you!

Yours sincerely
Mrs Nicola Moore
