

I spoke at one of the open floor hearings and expressed my concern as to the effect the overhead power lines would have to my apiary.

In the "applicant's response to the open floor hearings" report no mention was made to this specific concern.

National grid stated that they had contacted or were in the process of contacting all individual landowners who spoke at the open floor hearings. They have not contacted me. As I spoke at the first open floor hearing I would have expected to be one of the first to be contacted. In my written statement I asked the Planning Inspectorate for a site visit and this has also not happened.
