

Submission ID: S29D74B52

I have read National Grid's Document 8.5.4 Applicant's Response to the Open Floor Hearings. As someone who spoke at the Norwich Open Floor Hearing 3, I note that National Grid have not in any way recognised or addressed my issues, which are local and personal to my own situation and community, They have simply grouped issues by theme and topic, which is lazy, disingenuous and entirely inadequate - and in fact, insulting to those who took the time and trouble to speak.

I request that the issues that I and other speakers raised are addressed in full.
