1. Introduction

1.1 Overview

- 1.1.1 On 29 August 2025, National Grid Electricity Transmission plc (the Applicant) submitted an application to the Secretary of State for Energy Security and Net Zero for a Development Consent Order (DCO) to authorise the construction and operation (and maintenance) of the proposed upgrade to the electricity transmission system in East Anglia between Norwich and Tilbury (the Project).
- 1.1.2 The Application for the Project was accepted for Examination by the Planning Inspectorate on 26 September 2025 and has been allocated the reference number EN020027. The Examination of the Project commenced on 10 February 2026 and is expected to close on 10 August 2026.

1.2 Proposed Change Application 2

- 1.2.1 This document has been submitted to support Proposed Change Application 2 for Change Request 2 (Little Bromley). Change Request 2 relates to an amendment to the Order Limits in order to support a small modification to the route of the Applicant's construction access (for use when a third-party access is not available) and a further small modification to the route for the private permanent Abnormal Indivisible Load (AIL) access route. The amendments respond to further engagement with landowners and are intended to reduce temporary and permanent impacts on land uses.
- 1.2.2 Further details relating to Change Request 2 (Little Bromley) are provided in **Proposed Change Application 2: Overview Report – Change Request 2 (Little Bromley)** [document reference 9.6].
- 1.2.3 In parallel to the submission of Proposed Change Application 2, the Applicant has also submitted a separate application (Proposed Change Application 1) for a separate design change (Change Request 1). Details relating to Proposed Change Application 1 are included in separate application documents submitted by the Applicant to the ExA on 27 March 2026.

1.3 Purpose of this Document

- 1.3.1 Change Request 2 (Little Bromley) is described and assessed in a number of updates and addenda to the originally submitted application documents and, in certain cases, updated during the course of the Examination to date.
- 1.3.2 As per the *Planning Inspectorate's (2024) advice: Nationally Significant Infrastructure Projects: Changes to an application after it has been accepted for examination (PINS Guidance 2024)*, this document provides a full schedule of all application documents and plans submitted to the Planning Inspectorate on 29 August 2025 and during the course of the Examination to date that will be updated as a result of Change Request 2 (Little Bromley). Where a row is highlighted **green**, this denotes a new or updated document that is being submitted to support the Proposed Change Application 2 and where a row is highlighted **blue**, this denotes an application document that will be updated if the ExA accepts Change Request 2 (Little Bromley).

- 1.3.3 The schedule also includes a commentary where documents or plans would not be revised as a result of Change Request 2 (Little Bromley) being accepted.
